Exchange Certification for Options on Corn Futures Calendar
Spreads; Options on Soybean Futures Calendar Spreads; Options
on Soybean Oil Futures Calendar Spreads; Options on Soybean
Meal Futures Calendar Spreads; Options on Wheat Futures Calendar
Spreads
CBOT Submission No. 09-072**

Dear Mr. Stawick:

The Board of Trade of the City of Chicago, Inc. ("CBOT") hereby submits to the Commodity Futures Trading Commission rule language for exchange-traded Options on Calendar Spreads in Corn, Soybean, Soybean Oil, Soybean Meal and Wheat futures. These products will be traded on the Exchange's Globex® electronic trading system and via open auction beginning on June 1, 2009. CBOT plans to list the three nearby calendar spread options as well as an option on the old crop/new crop spread for each respective commodity.

These new products will provide commercial hedgers with an additional tool to manage risk resulting from storage and marketing decisions for grain and oilseed products and related calendar spread trading strategies. These products will also provide investors with an additional tool to manage risk related to futures roll-over transactions.

The futures calendar spreads that underlie calendar spread options are defined as the nearby futures month minus the deferred futures month; hence options on a market in contango will have negative strike prices as well as positive strike prices. The calendar spread options have European style exercise specifications, meaning the options can only be exercised following expiration. The options exercise into the respective underlying futures contracts, concurrent with the expiration of standard options on the nearby futures contract.

CBOT certifies that these contract terms and conditions comply with the Commodity Exchange Act and regulations thereunder.

If you require any additional information, please contact David Lehman at 312-930-1875 or via e-mail at David.Lehman@cmegroup.com; Andrew Spottiswoode at 312-466-7443 or via e-mail

Chapter 10J Corn Calendar Spread Options

10J00. SCOPE OF CHAPTER

This chapter is limited in application to put and call options on Corn Futures Calendar Spreads. In addition to the rules of this chapter, transactions in Corn Calendar Spread Options shall be subject to the general rules of the Exchange insofar as applicable.

10J01. OPTIONS CHARACTERISTICS

10J 01.A. Contract Months

Trading in Corn Calendar Spread options may be scheduled in such months as determined by the Exchange.

10J 01.B. Trading Unit

One Corn Calendar Spread Option reflects one (1) Corn futures contract of a specified nearby contract month, and one opposing Corn futures contract of a specified deferred contract month on the Board of Trade of the City of Chicago, Inc.

The Corn Calendar Spread is calculated in cents/bushel as:

Nearby Corn futures price in cents/bushel – Deferred Corn futures price in cents/bushel.

10J01.C. Minimum Fluctuations

The premium for Corn Calendar Spread options shall be in multiples of one eighth (1/8) of one cent per bushel, or six dollars and twenty five cents (\$6.25) per contract.

However, a position may be initiated or liquidated in Corn Calendar Spread options at premiums ranging from \$1.00 to \$6.00, in \$1.00 increments per option contract.

10J01.D. Trading Hours

The hours for trading of Corn Calendar Spread options contracts shall be determined by the Exchange. Corn Calendar Spread options shall be opened and closed for all months and strike prices simultaneously.

On the last day of trading in an expiring option, the expiring Corn Calendar Spread options shall be closed with a public call, made strike price by strike price, immediately following the close of the open outcry trading session for the corresponding futures contracts.

10J01.E. Exercise Prices

Trading shall be conducted for put and call options with strike prices in integral multiples of one cent per bushel per Corn Calendar Spread contract. At the commencement of trading for such option contracts, the following strike prices shall be listed: one with a strike price closest to the previous day's Corn Calendar Spread price settlement; the next ten consecutive higher and the next ten consecutive lower strike prices closest to the previous day's Corn Calendar Spread settlement price. If the previous day's settlement price is midway between two strike prices, the closest price shall be the larger of the two. When a sale in the underlying Corn Calendar Spread occurs at a price greater than or equal to the tenth largest strike price, a new strike price one increment higher than the existing strike prices will be added. When a sale in the underlying Corn Calendar Spread occurs at a price less than or equal to the tenth smallest strike price, a new strike price one increment lower than the existing strike prices will be added. When a new strike price is added for an option contract month, the same strike price will be added to all

option contract months for which that strike price is not already listed. All new strike prices will be added prior to the opening of trading on the following business day.

The Exchange may modify the procedure for the introduction of strike prices as it deems appropriate in order to respond to market conditions.

10J01.F. Position Limits

For the purposes of this rule positions in Corn futures and options, mini-sized Corn futures, and Corn Calendar Spread Options will be aggregated for the purpose of determining compliance with the contracts' position limit.

In accordance with Rule 559, Position Limits and Exemptions, no person shall own or control Corn Calendar Spread Options positions in excess of:

1. 13,500 futures-equivalent contracts net long or net short in any single contract month excluding the spot month. Additional options contracts may be held as part of option/option or option/futures spreads between months within the same crop year or across multiple crop years provided that the total of such positions, when combined with outright positions, does not exceed the all months combined limit. The futures-equivalents for both the options and futures contracts are aggregated to determine compliance with these net same side single month position limits.
2. 22,000 futures-equivalent contracts net long or net short in all months combined.

Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.

10J01.G. Reserved

10J01.H. Nature of Options on the Calendar Spreads

The buyer of one Corn Calendar Spread put option may exercise his option only upon option expiration, (subject to Rule 10J02.A), to assume a short position of one futures contract of a nearby specified contract month, and a long position in one futures contract of a deferred specified contract month, at a strike price set at the time the option was purchased.

The seller of one Corn Calendar Spread put option incurs the obligation of assuming a long position of one futures contract of a nearby specified contract month, and a short position of one futures contract of a deferred specified contract month at a combination of prices such that the Calendar Spread equals the strike price set at the time the option was sold, upon exercise by a put option buyer.

The buyer of one Corn Calendar Spread call option may exercise his option only upon option expiration, (subject to Rule 10J02.A), to assume a long position of one futures contract of a nearby specified contract month, and a short position of one futures contract of a deferred specified contract month at a strike price set at the time the option was purchased.

The seller of one Corn Calendar Spread call option incurs the obligation of assuming a short position of one futures contract of a nearby specified contract month and a long position of one futures contract of a deferred specified contract month at a combination of prices such that the Calendar Spread equals the strike price set at the time the option was sold, upon exercise by a call option buyer.

10J01.I. Termination of Trading

Subject to the provisions of rule 10J01.D no trades in Corn Calendar Spread options expiring in the current month shall be made after the close of trading of the open outcry trading session on the day identical to the expiration of options corresponding to Corn Futures. Therefore, expiration will occur on the last Friday which precedes by at least two business days, the last business day of the month preceding that earliest expiring corresponding option month. If such Friday is not a business day, the last day of trading shall be the business day prior to such Friday. For example, the March-May Corn Calendar Spread Option (March Corn minus May Corn) will expire on the last Friday which precedes by at least two business days the last business day of February; the September-December Corn Calendar

Spread Option (September Corn minus December Corn) will expire on the last Friday which precedes by at least two business days the last business day of August.

10J01.J. Contract Modification

Specifications shall be fixed as of the first day of trading of a contract except that all options must conform to government regulations in force at the time of exercise. If the U.S. government, an agency, or duly constituted body thereof issues an order, ruling, directive, or law inconsistent with these rules, such order, ruling, directive, or law shall be construed to become part of the rules and all open and new options contracts shall be subject to such government orders.

10J02. EXERCISE AND ASSIGNMENT

In addition to the applicable procedures and requirements of Chapter 7, the following shall apply to the exercise and assignment of Corn Calendar Spread Options.

10J02.A. Exercise of Option

The buyer of a Corn Calendar Spread option may exercise the option only on the business day such option expires by giving notice of exercise to the Clearing House by 6:00 p.m. Chicago time, or by such other time designated by the Exchange, on such day. In-the-money options that have not been liquidated or exercised on the last day of trading in such option shall be automatically exercised in the absence of contrary instructions delivered to the Clearing House by 6:00 p.m. Chicago time, or by such other time designated by the Exchange, on the last day of trading by the clearing member representing the option buyer.

The Corn Calendar Spread is calculated using final settlement values for the underlying contracts in the following formula: (Settlement Price of specified nearby Corn futures) – (Settlement Price of specified deferred Corn futures). An option is in-the-money if the settlement price of the underlying Calendar Spread is greater in the case of a call, or less in the case of a put, than the exercise price of the option.

10J02.B. Assignment

Exercise notices accepted by the Clearing House shall be assigned through a process of random selection to clearing members' open short positions in the same series. A clearing member to which an exercise notice is assigned shall be notified of the assignment as soon as practicable after such notice is assigned by the Clearing House.

Upon the exercise of a Corn Calendar Spread option the Clearing House assigns prices to the legs of the Corn Calendar Spread in the following manner:

- a. assigned nearby Corn Futures price equals the Corn Futures settlement price on the day of exercise,
- b. assigned deferred Corn Futures price equals the nearby Corn Futures settlement price on the day of exercise minus the strike value of the option,

All such futures positions shall be marked to market in accordance with Rule 814 on the trading day of acceptance by the Clearing House of the exercise notice.

10J03. ACTS OF GOVERNMENT, ACTS OF GOD AND OTHER EMERGENCIES

(Refer to Rule 701.).

10J04. CORRECTIONS TO OPTIONS EXERCISES

Corrections to option exercises, including automatic exercises, may be accepted by the Clearing House after the 6:00 p.m. deadline and up to the beginning of final option expiration processing provided that such corrections are necessary due to: (1) a bona fide clerical error, (2) an un-reconciled Exchange option transaction(s), or (3) an extraordinary circumstance where the clearing firm and customer are unable to communicate final option exercise instructions prior to the deadline. The decision as to whether a correction is acceptable will be made by the President of the Clearing House, or the President's designee, and such decision will be final.

Mr. David Stawick
May 1, 2009
Page 6 of 22

10J05. OPTION PREMIUM FLUCTUATION LIMITS

Trading is prohibited during any day except for the last day of trading in a Corn Calendar Spread option at a premium of more than the sum of the trading limits for the underlying Corn futures contracts above and below the previous day's settlement premium for that option as determined by the Clearing House.

10J06. PAYMENT OF OPTION PREMIUM

The option premium must be paid in full by each clearing member to the Clearing House and by each option customer to his futures commission merchant at the time that the option is purchased, or within a reasonable time after the option is purchased.

Chapter 11E
Soybean Calendar Spread Options

11E00. SCOPE OF CHAPTER

This chapter is limited in application to put and call options on Soybean Futures Calendar Spreads. In addition to the rules of this chapter, transactions in Soybean Calendar Spread Options shall be subject to the general rules of the Exchange insofar as applicable.

11E01. OPTIONS CHARACTERISTICS

11E01.A. Contract Months

Trading in Soybean Calendar Spread options may be scheduled in such months as determined by the Exchange.

11E01.B. Trading Unit

One Soybean Calendar Spread Option reflects one (1) Soybean futures contract of a specified nearby contract month, and one opposing Soybean futures contract of a specified deferred contract month on the Board of Trade of the City of Chicago, Inc.

The Soybean Calendar Spread is calculated in cents/bushel as:

Nearby Soybean futures price in cents/bushel – Deferred Soybean futures price in cents/bushel.

11E01.C. Minimum Fluctuations

The premium for Soybean Calendar Spread options shall be in multiples of one eighth (1/8) of one cent per bushel, or six dollars and twenty five cents (\$6.25) per contract.

However, a position may be initiated or liquidated in Soybean Calendar Spread options at premiums ranging from \$1.00 to \$6.00, in \$1.00 increments per option contract.

11E01.D. Trading Hours

The hours for trading of Soybean Calendar Spread options contracts shall be determined by the Exchange. Soybean Calendar Spread options shall be opened and closed for all months and strike prices simultaneously.

On the last day of trading in an expiring option, the expiring Soybean Calendar Spread options shall be closed with a public call, made strike price by strike price, immediately following the close of the open outcry trading session for the corresponding futures contracts.

11E01.E. Exercise Prices

Trading shall be conducted for put and call options with strike prices in integral multiples of one cent per bushel per Soybean Calendar Spread contract. At the commencement of trading for such option contracts, the following strike prices shall be listed: one with a strike price closest to the previous day's Soybean Calendar Spread price settlement; the next ten consecutive higher and the next ten consecutive lower strike prices closest to the previous day's Soybean Calendar Spread settlement price. If the previous day's settlement price is midway between two strike prices, the closest price shall be the larger of the two. When a sale in the underlying Soybean Calendar Spread occurs at a price greater than or equal to the tenth largest strike price, a new strike price one increment higher than the existing strike prices will be added. When a sale in the underlying Soybean Calendar Spread occurs at a price less than or equal to the tenth smallest strike price, a new strike price one increment lower than the existing strike prices will be added. When a new strike price is added for an option contract month, the same strike price will be added to all option contract months for which that strike price is not already listed. All new strike prices will be added prior to the opening of trading on the following business day.

The Exchange may modify the procedure for the introduction of strike prices as it deems appropriate in order to respond to market conditions.

11E01.F. Position Limits

For the purposes of this rule positions in Soybean futures and options, mini-sized Soybean futures, and Soybean Calendar Spread Options will be aggregated for the purpose of determining compliance with the contracts' position limit.

In accordance with Rule 559, Position Limits and Exemptions, no person shall own or control Soybean Calendar Spread Options positions in excess of:

1. 6,500 futures-equivalent contracts net long or net short in any single contract month excluding the spot month. Additional options contracts may be held as part of option/option or option/futures spreads between months within the same crop year or across multiple crop years provided that the total of such positions, when combined with outright positions, does not exceed the all months combined limit. The futures-equivalents for both the options and futures contracts are aggregated to determine compliance with these net same side single month position limits.
2. 10,000 futures-equivalent contracts net long or net short in all months combined.

Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.

11E01.G. Reserved

11E01.H. Nature of Options on the Calendar Spreads

The buyer of one Soybean Calendar Spread put option may exercise his option only upon option expiration, (subject to Rule 11E02.A), to assume a short position of one futures contract of a nearby specified contract month, and a long position in one futures contract of a deferred specified contract month, at a strike price set at the time the option was purchased.

The seller of one Soybean Calendar Spread put option incurs the obligation of assuming a long position one futures contract of a nearby specified contract month, and a short position of one futures contract of a deferred specified contract month at a combination of prices such that the Calendar Spread equals the strike price set at the time the option was sold, upon exercise by a put option buyer.

The buyer of one Soybean Calendar Spread call option may exercise his option only upon option expiration, (subject to Rule 11E02.A), to assume a long position of one futures contract of a nearby specified contract month, and a short position of one futures contract of a deferred specified contract month at a strike price set at the time the option was purchased.

The seller of one Soybean Calendar Spread call option incurs the obligation of assuming a short position of one futures contract of a nearby specified contract month and a long position of one futures contract of a deferred specified contract month at a combination of prices such that the Calendar Spread equals the strike price set at the time the option was sold, upon exercise by a call option buyer.

11E01.I. Termination of Trading

Subject to the provisions of rule 11E01.D no trades in Soybean Calendar Spread options expiring in the current month shall be made after the close of trading of the open outcry trading session on the day identical to the expiration of options corresponding to Soybean Futures. Therefore, expiration will occur on the last Friday which precedes by at least two business days, the last business day of the month preceding that earliest expiring corresponding option month. If such Friday is not a business day, the last day of trading shall be the business day prior to such Friday. For example, the March-May Soybean Calendar Spread Option (March Soybeans minus May Soybeans) will expire on the last Friday which precedes by at least two business days the last business day of February; the November-January Soybean Calendar Spread Option (November Soybeans minus January Soybeans) will expire on the last Friday which precedes by at least two business days the last business day of October.

11E01.J. Contract Modification

Specifications shall be fixed as of the first day of trading of a contract except that all options must conform to government regulations in force at the time of exercise. If the U.S. government, an agency, or duly constituted body thereof issues an order, ruling, directive, or law inconsistent with these rules, such order, ruling, directive, or law shall be construed to become part of the rules and all open and new options contracts shall be subject to such government orders.

11E02. EXERCISE AND ASSIGNMENT

In addition to the applicable procedures and requirements of Chapter 7, the following shall apply to the exercise and assignment of Soybean Calendar Spread Options.

11E02.A. Exercise of Option

The buyer of a Soybean Calendar Spread option may exercise the option only on the business day such option expires by giving notice of exercise to the Clearing House by 6:00 p.m. Chicago time, or by such other time designated by the Exchange, on such day. In-the-money options that have not been liquidated or exercised on the last day of trading in such option shall be automatically exercised in the absence of contrary instructions delivered to the Clearing House by 6:00 p.m. Chicago time, or by such other time designated by the Exchange, on the last day of trading by the clearing member representing the option buyer.

The Soybean Calendar Spread is calculated using final settlement values for the underlying contracts in the following formula: (Settlement Price of specified nearby Soybean futures) – (Settlement Price of specified deferred Soybean futures). An option is in-the-money if the settlement price of the underlying Calendar Spread is greater in the case of a call, or less in the case of a put, than the exercise price of the option.

11E02.B. Assignment

Exercise notices accepted by the Clearing House shall be assigned through a process of random selection to clearing members' open short positions in the same series. A clearing member to which an exercise notice is assigned shall be notified of the assignment as soon as practicable after such notice is assigned by the Clearing House.

Upon the exercise of a Soybean Calendar Spread option the Clearing House assigns prices to the legs of the Soybean Calendar Spread in the following manner:

- a. assigned nearby Soybean Futures price equals the Soybean Futures settlement price on the day of exercise,
- b. assigned deferred Soybean Futures price equals the nearby Soybean Futures settlement price on the day of exercise minus the strike value of the option,

All such futures positions shall be marked to market in accordance with Rule 814 on the trading day of acceptance by the Clearing House of the exercise notice.

11E03. ACTS OF GOVERNMENT, ACTS OF GOD AND OTHER EMERGENCIES

(Refer to Rule 701.).

11E04. CORRECTIONS TO OPTIONS EXERCISES

Corrections to option exercises, including automatic exercises, may be accepted by the Clearing House after the 6:00 p.m. deadline and up to the beginning of final option expiration processing provided that such corrections are necessary due to: (1) a bona fide clerical error, (2) an un-reconciled Exchange option transaction(s), or (3) an extraordinary circumstance where the clearing firm and customer are unable to communicate final option exercise instructions prior to the deadline. The decision as to whether a correction is acceptable will be made by the President of the Clearing House, or the President's designee, and such decision will be final.

Mr. David Stawick
May 1, 2009
Page 10 of 22

11E05. OPTION PREMIUM FLUCTUATION LIMITS

Trading is prohibited during any day except for the last day of trading in a Soybean Calendar Spread option at a premium of more than the sum of the trading limits for the underlying Soybean futures contracts above and below the previous day's settlement premium for that option as determined by the Clearing House.

11E06. PAYMENT OF OPTION PREMIUM

The option premium must be paid in full by each clearing member to the Clearing House and by each option customer to his futures commission merchant at the time that the option is purchased, or within a reasonable time after the option is purchased.

Chapter 12B
Soybean Oil Calendar Spread Options

12B00. SCOPE OF CHAPTER

This chapter is limited in application to put and call options on Soybean Oil Futures Calendar Spreads. In addition to the rules of this chapter, transactions in Soybean Oil Calendar Spread Options shall be subject to the general rules of the Exchange insofar as applicable.

12B01. OPTIONS CHARACTERISTICS

12B01.A. Contract Months

Trading in Soybean Oil Calendar Spread options may be scheduled in such months as determined by the Exchange.

12B01.B. Trading Unit

One Soybean Oil Calendar Spread Option reflects one (1) Soybean Oil futures contract of a specified nearby contract month, and one opposing Soybean Oil futures contract of a specified deferred contract month on the Board of Trade of the City of Chicago, Inc.

The Soybean Oil Calendar Spread is calculated in hundredths of cents/pound as:

Nearby Soybean Oil futures price in hundredths of cents/pound – Deferred Soybean Oil futures price in hundredths of cents/pound.

12B01.C. Minimum Fluctuations

The premium for Soybean Oil Calendar Spread options shall be in multiples of five thousandths (5/1000) of one cent per pound, or three dollars (\$3.00) per contract.

However, a position may be initiated or liquidated in Soybean Oil Calendar Spread options at premiums ranging from \$1.00 to \$2.00, in \$1.00 increments per option contract.

12B01.D. Trading Hours

The hours for trading of Soybean Oil Calendar Spread options contracts shall be determined by the Exchange. Soybean Oil Calendar Spread options shall be opened and closed for all months and strike prices simultaneously.

On the last day of trading in an expiring option, the expiring Soybean Oil Calendar Spread options shall be closed with a public call, made strike price by strike price, immediately following the close of the open outcry trading session for the corresponding futures contracts.

12B01.E. Exercise Prices

Trading shall be conducted for put and call options with strike prices in integral multiples of five-hundredths of a cent per pound per Soybean Oil Calendar Spread contract. At the commencement of trading for such option contracts, the following strike prices shall be listed: one with a strike price closest to the previous day's Soybean Oil Calendar Spread settlement price; the next ten consecutive higher and the next ten consecutive lower strike prices closest to the previous day's Soybean Oil Calendar Spread settlement price. If the previous day's settlement price is midway between two strike prices, the closest price shall be the larger of the two. When a sale in the underlying Soybean Oil Calendar Spread occurs at a price greater than or equal to the tenth largest strike price, a new strike price one increment higher than the existing strike prices will be added. When a sale in the underlying Soybean Oil Calendar Spread occurs at a price less than or equal to the tenth smallest strike price, a new strike price one increment lower than the existing strike prices will be added. When a new strike price is added for an option contract month, the same strike price will be added to all option contract months for which that strike price is not already listed. All new strike prices will be added prior to the

opening of trading on the following business day.

The Exchange may modify the procedure for the introduction of strike prices as it deems appropriate in order to respond to market conditions.

12B01.F. Position Limits

For the purposes of this rule positions in Soybean Oil futures and options and Soybean Oil Calendar Spread Options will be aggregated for the purpose of determining compliance with the contracts' position limit.

In accordance with Rule 559, Position Limits and Exemptions, no person shall own or control Soybean Oil Calendar Spread Options positions in excess of:

1. 5,000 futures-equivalent contracts net long or net short in any single contract month excluding the spot month. Additional options contracts may be held as part of option/option or option/futures spreads between months within the same crop year or across multiple crop years provided that the total of such positions, when combined with outright positions, does not exceed the all months combined limit. The futures-equivalents for both the options and futures contracts are aggregated to determine compliance with these net same side single month position limits.

2. 6,500 futures-equivalent contracts net long or net short in all months combined.

Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.

12B01.G. Reserved

12B01.H. Nature of Options on the Calendar Spreads

The buyer of one Soybean Oil Calendar Spread put option may exercise his option only upon option expiration, (subject to Rule 12B02.A), to assume a short position of one futures contract of a nearby specified contract month, and a long position in one futures contract of a deferred specified contract month, at a strike price set at the time the option was purchased.

The seller of one Soybean Oil Calendar Spread put option incurs the obligation of assuming a long position one futures contract of a nearby specified contract month, and a short position of one futures contract of a deferred specified contract month at a combination of prices such that the Calendar Spread equals the strike price set at the time the option was sold, upon exercise by a put option buyer.

The buyer of one Soybean Oil Calendar Spread call option may exercise his option only upon option expiration, (subject to Rule 12B02.A), to assume a long position of one futures contract of a nearby specified contract month, and a short position of one futures contract of a deferred specified contract month at a strike price set at the time the option was purchased.

The seller of one Soybean Oil Calendar Spread call option incurs the obligation of assuming a short position of one futures contracts of a nearby specified contract month and a long position of one futures contract of a deferred specified contract month at a combination of prices such that the Calendar Spread equals the strike price set at the time the option was sold, upon exercise by a call option buyer.

12B01.I. Termination of Trading

Subject to the provisions of rule 12B01.D no trades in Soybean Oil Calendar Spread options expiring in the current month shall be made after the close of trading of the open outcry trading session on the day identical to the expiration of options corresponding to Soybean Oil Futures. Therefore, expiration will occur on the last Friday which precedes by at least two business days, the last business day of the month preceding that earliest expiring corresponding option month. If such Friday is not a business day, the last day of trading shall be the business day prior to such Friday. For example, the March-May Soybean Oil Calendar Spread Option (March Soybean Oil minus May Soybean Oil) will expire on the last Friday which precedes by at least two business days the last business day of February; the

October-December Soybean Oil Calendar Spread Option (October Soybean Oil minus December

Soybean) will expire on the last Friday which precedes by at least two business days the last business day of September.

12B01.J. Contract Modification

Specifications shall be fixed as of the first day of trading of a contract except that all options must conform to government regulations in force at the time of exercise. If the U.S. government, an agency, or duly constituted body thereof issues an order, ruling, directive, or law inconsistent with these rules, such order, ruling, directive, or law shall be construed to become part of the rules and all open and new options contracts shall be subject to such government orders.

12B02. EXERCISE AND ASSIGNMENT

In addition to the applicable procedures and requirements of Chapter 7, the following shall apply to the exercise and assignment of Soybean Oil Calendar Spread Options.

12B02.A. Exercise of Option

The buyer of a Soybean Oil Calendar Spread option may exercise the option only on the business day such option expires by giving notice of exercise to the Clearing House by 6:00 p.m. Chicago time, or by such other time designated by the Exchange, on such day. In-the-money options that have not been liquidated or exercised on the last day of trading in such option shall be automatically exercised in the absence of contrary instructions delivered to the Clearing House by 6:00 p.m. Chicago time, or by such other time designated by the Exchange, on the last day of trading by the clearing member representing the option buyer.

The Soybean Oil Calendar Spread is calculated using final settlement values for the underlying contracts in the following formula: (Settlement Price of specified nearby Soybean Oil futures) – (Settlement Price of specified deferred Soybean Oil futures). An option is in-the-money if the settlement price of the underlying Calendar Spread is greater in the case of a call, or less in the case of a put, than the exercise price of the option.

12B02.B. Assignment

Exercise notices accepted by the Clearing House shall be assigned through a process of random selection to clearing members' open short positions in the same series. A clearing member to which an exercise notice is assigned shall be notified of the assignment as soon as practicable after such notice is assigned by the Clearing House.

Upon the exercise of a Soybean Oil Calendar Spread option the Clearing House assigns prices to the legs of the Soybean Oil Calendar Spread in the following manner:

- a. assigned nearby Soybean Oil Futures price equals the Soybean Oil Futures settlement price on the day of exercise,
- b. assigned deferred Soybean Oil Futures price equals the nearby Soybean Oil Futures settlement price on the day of exercise minus the strike value of the option,

All such futures positions shall be marked to market in accordance with Rule 814 on the trading day of acceptance by the Clearing House of the exercise notice.

12B03. ACTS OF GOVERNMENT, ACTS OF GOD AND OTHER EMERGENCIES

(Refer to Rule 701.).

12B04. CORRECTIONS TO OPTIONS EXERCISES

Corrections to option exercises, including automatic exercises, may be accepted by the Clearing House after the 6:00 p.m. deadline and up to the beginning of final option expiration processing provided that such corrections are necessary due to: (1) a bona fide clerical error, (2) an un-reconciled Exchange option transaction(s), or (3) an extraordinary circumstance where the clearing firm and customer are unable to communicate final option exercise instructions prior to the deadline. The decision as to whether a correction is acceptable will be made by the President of the Clearing House, or the

President's designee, and such decision will be final.

12B05. OPTION PREMIUM FLUCTUATION LIMITS

Trading is prohibited during any day except for the last day of trading in a Soybean Oil Calendar Spread option at a premium of more than the sum of the trading limits for the underlying Soybean Oil futures contracts above and below the previous day's settlement premium for that option as determined by the Clearing House.

12B06. PAYMENT OF OPTION PREMIUM

The option premium must be paid in full by each clearing member to the Clearing House and by each option customer to his futures commission merchant at the time that the option is purchased, or within a reasonable time after the option is purchased.

Chapter 13B Soybean Meal Calendar Spread Options

13B00. SCOPE OF CHAPTER

This chapter is limited in application to put and call options on Soybean Meal Futures Calendar Spreads. In addition to the rules of this chapter, transactions in Soybean Meal Calendar Spread Options shall be subject to the general rules of the Exchange insofar as applicable.

13B01. OPTIONS CHARACTERISTICS

13B01.A. Contract Months

Trading in Soybean Meal Calendar Spread options may be scheduled in such months as determined by the Exchange.

13B01.B. Trading Unit

One Soybean Meal Calendar Spread Option reflects one (1) Soybean Meal futures contract of a specified nearby contract month, and one opposing Soybean Meal futures contract of a specified deferred contract month on the Board of Trade of the City of Chicago, Inc.

The Soybean Meal Calendar Spread is calculated in dollars and cents per ton as:

Nearby Soybean Meal futures price in dollars and cents per ton – Deferred Soybean Meal futures price in dollars and cents per ton.

13B01.C. Minimum Fluctuations

The premium for Soybean Meal Calendar Spread options shall be in multiples of five cents per ton, which shall equal \$5.00 per contract.

However, a position may be initiated or liquidated in Soybean Meal Calendar Spread options at premiums ranging from \$1.00 to \$4.00, in \$1.00 increments per option contract.

13B01.D. Trading Hours

The hours for trading of Soybean Meal Calendar Spread options contracts shall be determined by the Exchange. Soybean Meal Calendar Spread options shall be opened and closed for all months and strike prices simultaneously.

On the last day of trading in an expiring option, the expiring Soybean Meal Calendar Spread options shall be closed with a public call, made strike price by strike price, immediately following the close of the open outcry trading session for the corresponding futures contracts.

13B01.E. Exercise Prices

Trading shall be conducted for put and call options with strike prices in integral multiples of fifty cents per ton per Soybean Meal Calendar Spread contract. At the commencement of trading for such option contracts, the following strike prices shall be listed: one with a strike price closest to the previous day's Soybean Meal Calendar Spread settlement price; the next ten consecutive higher and the next ten consecutive lower strike prices closest to the previous day's Soybean Meal Calendar Spread settlement price. If the previous day's settlement price is midway between two strike prices, the closest price shall be the larger of the two. When a sale in the underlying Soybean Meal Calendar Spread occurs at a price greater than or equal to the tenth largest strike price, a new strike price one increment higher than the existing strike prices will be added. When a sale in the underlying Soybean Meal Calendar Spread occurs at a price less than or equal to the tenth smallest strike price, a new strike price one increment lower than the existing strike prices will be added. When a new strike price is added for an option contract month, the same strike price will be added to all option contract months for which that strike price is not already listed. All new strike prices will be added prior to the opening of trading on the

following business day.

The Exchange may modify the procedure for the introduction of strike prices as it deems appropriate in order to respond to market conditions.

13B01.F. Position Limits

For the purposes of this rule positions in Soybean Meal futures and options and Soybean Meal Calendar Spread Options will be aggregated for the purpose of determining compliance with the contracts' position limit.

In accordance with Rule 559, Position Limits and Exemptions, no person shall own or control Soybean Meal Calendar Spread Options positions in excess of:

1. 5,000 futures-equivalent contracts net long or net short in any single contract month excluding the spot month. Additional options contracts may be held as part of option/option or option/futures spreads between months within the same crop year or across multiple crop years provided that the total of such positions, when combined with outright positions, does not exceed the all months combined limit. The futures-equivalents for both the options and futures contracts are aggregated to determine compliance with these net same side single month position limits.
2. 6,500 futures-equivalent contracts net long or net short in all months combined.

Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.

13B01.G. Reserved

13B01.H. Nature of Options on the Calendar Spreads

The buyer of one Soybean Meal Calendar Spread put option may exercise his option only upon option expiration, (subject to Rule 13B02.A), to assume a short position of one futures contract of a nearby specified contract month, and a long position in one futures contract of a deferred specified contract month, at a strike price set at the time the option was purchased.

The seller of one Soybean Meal Calendar Spread put option incurs the obligation of assuming a long position one futures contract of a nearby specified contract month, and a short position of one futures contract of a deferred specified contract month at a combination of prices such that the Calendar Spread equals the strike price set at the time the option was sold, upon exercise by a put option buyer.

The buyer of one Soybean Meal Calendar Spread call option may exercise his option only upon option expiration, (subject to Rule 13B02.A), to assume a long position of one futures contract of a nearby specified contract month, and a short position of one futures contract of a deferred specified contract month at a strike price set at the time the option was purchased.

The seller of one Soybean Meal Calendar Spread call option incurs the obligation of assuming a short position of one futures contract of a nearby specified contract month and a long position of one futures contract of a deferred specified contract month at a combination of prices such that the Calendar Spread equals the strike price set at the time the option was sold, upon exercise by a call option buyer.

13B01.I. Termination of Trading

Subject to the provisions of rule 13B01.D no trades in Soybean Meal Calendar Spread options expiring in the current month shall be made after the close of trading of the open outcry trading session on the day identical to the expiration of options corresponding to Soybean Meal Futures. Therefore, expiration will occur on the last Friday which precedes by at least two business days, the last business day of the month preceding that earliest expiring corresponding option month. If such Friday is not a business day, the last day of trading shall be the business day prior to such Friday. For example, the March-May Soybean Meal Calendar Spread Option (March Soybean Meal minus May Soybean Meal) will expire on the last Friday which precedes by at least two business days the last business day of February; the October-December Soybean Meal Calendar Spread Option (October Soybean Meal minus December

Soybean) will expire on the last Friday which precedes by at least two business days the last business day of September.

13B01.J. Contract Modification

Specifications shall be fixed as of the first day of trading of a contract except that all options must conform to government regulations in force at the time of exercise. If the U.S. government, an agency, or duly constituted body thereof issues an order, ruling, directive, or law inconsistent with these rules, such order, ruling, directive, or law shall be construed to become part of the rules and all open and new options contracts shall be subject to such government orders.

13B02. EXERCISE AND ASSIGNMENT

In addition to the applicable procedures and requirements of Chapter 7, the following shall apply to the exercise and assignment of Soybean Meal Calendar Spread Options.

13B02.A. Exercise of Option

The buyer of a Soybean Meal Calendar Spread option may exercise the option only on the business day such option expires by giving notice of exercise to the Clearing House by 6:00 p.m. Chicago time, or by such other time designated by the Exchange, on such day. In-the-money options that have not been liquidated or exercised on the last day of trading in such option shall be automatically exercised in the absence of contrary instructions delivered to the Clearing House by 6:00 p.m. Chicago time, or by such other time designated by the Exchange, on the last day of trading by the clearing member representing the option buyer.

The Soybean Meal Calendar Spread is calculated using final settlement values for the underlying contracts in the following formula: (Settlement Price of specified nearby Soybean Meal futures) – (Settlement Price of specified deferred Soybean Meal futures). An option is in-the-money if the settlement price of the underlying Calendar Spread is greater in the case of a call, or less in the case of a put, than the exercise price of the option.

13B02.B. Assignment

Exercise notices accepted by the Clearing House shall be assigned through a process of random selection to clearing members' open short positions in the same series. A clearing member to which an exercise notice is assigned shall be notified of the assignment as soon as practicable after such notice is assigned by the Clearing House.

Upon the exercise of a Soybean Meal Calendar Spread option the Clearing House assigns prices to the legs of the Soybean Meal Calendar Spread in the following manner:

- a. assigned nearby Soybean Oil Futures price equals the Soybean Meal Futures settlement price on the day of exercise,
- b. assigned deferred Soybean Oil Futures price equals the nearby Soybean Meal Futures settlement price on the day of exercise minus the strike value of the option,

All such futures positions shall be marked to market in accordance with Rule 814 on the trading day of acceptance by the Clearing House of the exercise notice.

13B03. ACTS OF GOVERNMENT, ACTS OF GOD AND OTHER EMERGENCIES

(Refer to Rule 701.).

13B04. CORRECTIONS TO OPTIONS EXERCISES

Corrections to option exercises, including automatic exercises, may be accepted by the Clearing House after the 6:00 p.m. deadline and up to the beginning of final option expiration processing provided that such corrections are necessary due to: (1) a bona fide clerical error, (2) an un-reconciled Exchange option transaction(s), or (3) an extraordinary circumstance where the clearing firm and customer are unable to communicate final option exercise instructions prior to the deadline. The decision as to whether a correction is acceptable will be made by the President of the Clearing House, or the

Mr. David Stawick

May 1, 2009

Page 18 of 22

President's designee, and such decision will be final.

13B05. OPTION PREMIUM FLUCTUATION LIMITS

Trading is prohibited during any day except for the last day of trading in a Soybean Meal Calendar Spread option at a premium of more than the sum of the trading limits for the underlying Soybean Meal futures contracts above and below the previous day's settlement premium for that option as determined by the Clearing House.

13B06. PAYMENT OF OPTION PREMIUM

The option premium must be paid in full by each clearing member to the Clearing House and by each option customer to his futures commission merchant at the time that the option is purchased, or within a reasonable time after the option is purchased.

Chapter 14D Wheat Calendar Spread Options

14D00. SCOPE OF CHAPTER

This chapter is limited in application to put and call options on Wheat Futures Calendar Spreads. In addition to the rules of this chapter, transactions in Wheat Calendar Spread Options shall be subject to the general rules of the Exchange insofar as applicable.

14D01. OPTIONS CHARACTERISTICS

14D01.A. Contract Months

Trading in Wheat Calendar Spread options may be scheduled in such months as determined by the Exchange.

14D01.B. Trading Unit

One Wheat Calendar Spread Option reflects one (1) Wheat futures contract of a specified nearby contract month, and one opposing Wheat futures contract of a specified deferred contract month on the Board of Trade of the City of Chicago, Inc.

The Wheat Calendar Spread is calculated in cents/bushel as:

Nearby Wheat futures price in cents/bushel – Deferred Wheat futures price in cents/bushel.

14D01.C. Minimum Fluctuations

The premium for Wheat Calendar Spread options shall be in multiples of one eighth (1/8) of one cent per bushel, or six dollars and twenty five cents (\$6.25) per contract.

However, a position may be initiated or liquidated in Wheat Calendar Spread options at premiums ranging from \$1.00 to \$6.00, in \$1.00 increments per option contract.

14D01.D. Trading Hours

The hours for trading of Wheat Calendar Spread options contracts shall be determined by the Exchange. Wheat Calendar Spread options shall be opened and closed for all months and strike prices simultaneously.

On the last day of trading in an expiring option, the expiring Wheat Calendar Spread options shall be closed with a public call, made strike price by strike price, immediately following the close of the open outcry trading session for the corresponding futures contracts.

14D01.E. Exercise Prices

Trading shall be conducted for put and call options with strike prices in integral multiples of one cent per bushel per Wheat Calendar Spread contract. At the commencement of trading for such option contracts, the following strike prices shall be listed: one with a strike price closest to the previous day's Wheat Calendar Spread settlement price; the next ten consecutive higher and the next ten consecutive lower strike prices closest to the previous day's Wheat Calendar Spread settlement price. If the previous day's settlement price is midway between two strike prices, the closest price shall be the larger of the two. When a sale in the underlying Wheat Calendar Spread occurs at a price greater than or equal to the tenth largest strike price, a new strike price one increment higher than the existing strike prices will be added. When a sale in the underlying Wheat Calendar Spread occurs at a price less than or equal to the tenth smallest strike price, a new strike price one increment lower than the existing strike prices will be added. When a new strike price is added for an option contract month, the same strike price will be added to all option contract months for which that strike price is not already listed. All new strike prices will be added prior to the opening of trading on the following business day.

The Exchange may modify the procedure for the introduction of strike prices as it deems appropriate in

order to respond to market conditions.

14D01.F. Position Limits

For the purposes of this rule positions in Wheat futures and options, mini-sized Wheat futures, and Wheat Calendar Spread Options will be aggregated for the purpose of determining compliance with the contracts' position limit.

In accordance with Rule 559, Position Limits and Exemptions, no person shall own or control Wheat Calendar Spread Options positions in excess of:

1. 5,000 futures-equivalent contracts net long or net short in any single contract month excluding the spot month. Additional options contracts may be held as part of option/option or option/futures spreads between months within the same crop year or across multiple crop years provided that the total of such positions, when combined with outright positions, does not exceed the all months combined limit. The futures-equivalents for both the options and futures contracts are aggregated to determine compliance with these net same side single month position limits.
2. 6,500 futures-equivalent contracts net long or net short in all months combined.

Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.

14D01.G. Reserved

14D01.H. Nature of Options on the Calendar Spreads

The buyer of one Wheat Calendar Spread put option may exercise his option only upon option expiration, (subject to Rule 14D02.A), to assume a short position of one futures contract of a nearby specified contract month, and a long position in one futures contract of a deferred specified contract month, at a strike price set at the time the option was purchased.

The seller of one Wheat Calendar Spread put option incurs the obligation of assuming a long position one futures contract of a nearby specified contract month, and a short position of one futures contract of a deferred specified contract month at a combination of prices such that the Calendar Spread equals the strike price set at the time the option was sold, upon exercise by a put option buyer.

The buyer of one Wheat Calendar Spread call option may exercise his option only upon option expiration, (subject to Rule 14D02.A), to assume a long position of one futures contract of a nearby specified contract month, and a short position of one futures contract of a deferred specified contract month at a strike price set at the time the option was purchased.

The seller of one Wheat Calendar Spread call option incurs the obligation of assuming a short position of one futures contract of a nearby specified contract month and a long position of one futures contract of a deferred specified contract month at a combination of prices such that the Calendar Spread equals the strike price set at the time the option was sold, upon exercise by a call option buyer.

14D01.I. Termination of Trading

Subject to the provisions of rule 14D01.D no trades in Wheat Calendar Spread options expiring in the current month shall be made after the close of trading of the open outcry trading session on the day identical to the expiration of options corresponding to Wheat Futures. Therefore, expiration will occur on the last Friday which precedes by at least two business days, the last business day of the month preceding that earliest expiring corresponding option month. If such Friday is not a business day, the last day of trading shall be the business day prior to such Friday. For example, the March-May Wheat Calendar Spread Option (March Wheat minus May Wheat) will expire on the last Friday which precedes by at least two business days the last business day of February; the December-July Wheat Calendar Spread Option (December Wheat minus July Wheat) will expire on the last Friday which precedes by at least two business days the last business day of November.

14D01.J. Contract Modification

Specifications shall be fixed as of the first day of trading of a contract except that all options must conform to government regulations in force at the time of exercise. If the U.S. government, an agency, or duly constituted body thereof issues an order, ruling, directive, or law inconsistent with these rules, such order, ruling, directive, or law shall be construed to become part of the rules and all open and new options contracts shall be subject to such government orders.

14D02. EXERCISE AND ASSIGNMENT

In addition to the applicable procedures and requirements of Chapter 7, the following shall apply to the exercise and assignment of Soybean Calendar Spread Options.

14D02.A. Exercise of Option

The buyer of a Wheat Calendar Spread option may exercise the option only on the business day such option expires by giving notice of exercise to the Clearing House by 6:00 p.m. Chicago time, or by such other time designated by the Exchange, on such day. In-the-money options that have not been liquidated or exercised on the last day of trading in such option shall be automatically exercised in the absence of contrary instructions delivered to the Clearing House by 6:00 p.m. Chicago time, or by such other time designated by the Exchange, on the last day of trading by the clearing member representing the option buyer.

The Wheat Calendar Spread is calculated using final settlement values for the underlying contracts in the following formula: (Settlement Price of specified nearby Wheat futures) – (Settlement Price of specified deferred Wheat futures). An option is in-the-money if the settlement price of the underlying Calendar Spread is greater in the case of a call, or less in the case of a put, than the exercise price of the option.

14D02.B. Assignment

Exercise notices accepted by the Clearing House shall be assigned through a process of random selection to clearing members' open short positions in the same series. A clearing member to which an exercise notice is assigned shall be notified of the assignment as soon as practicable after such notice is assigned by the Clearing House.

Upon the exercise of a Wheat Calendar Spread option the Clearing House assigns prices to the legs of the Wheat Calendar Spread in the following manner:

- a. assigned nearby Wheat Futures price equals the Wheat Futures settlement price on the day of exercise,
- b. assigned deferred Wheat Futures price equals the nearby Wheat Futures settlement price on the day of exercise minus the strike value of the option,

All such futures positions shall be marked to market in accordance with Rule 814 on the trading day of acceptance by the Clearing House of the exercise notice.

14D03. ACTS OF GOVERNMENT, ACTS OF GOD AND OTHER EMERGENCIES

(Refer to Rule 701.).

14D04. CORRECTIONS TO OPTIONS EXERCISES

Corrections to option exercises, including automatic exercises, may be accepted by the Clearing House after the 6:00 p.m. deadline and up to the beginning of final option expiration processing provided that such corrections are necessary due to: (1) a bona fide clerical error, (2) an un-reconciled Exchange option transaction(s), or (3) an extraordinary circumstance where the clearing firm and customer are unable to communicate final option exercise instructions prior to the deadline. The decision as to whether a correction is acceptable will be made by the President of the Clearing House, or the President's designee, and such decision will be final.

Mr. David Stawick

Page 22 of 22

14D05. OPTION PREMIUM FLUCTUATION LIMITS

Trading is prohibited during any day except for the last day of trading in a Wheat Calendar Spread option at a premium of more than the sum of the trading limits for the underlying Wheat futures contracts above and below the previous day's settlement premium for that option as determined by the Clearing House.

14D06. PAYMENT OF OPTION PREMIUM

The option premium must be paid in full by each clearing member to the Clearing House and by each option customer to his futures commission merchant at the time that the option is purchased, or within a reasonable time after the option is purchased.
