**Re: Rule 40.6(a) Certification. Notification of Delisting of Certain Contract Days and Contract Months for Seven Emissions Contracts as a Result of Changes to the European Union Registry Infrastructure
 GreenX Submission # GX-2012-12**

Dear Mr. Stawick:

On April 27, 2012, the European Commission announced the full activation of the EU Emissions Trading Scheme single registry and the migration of thousands of EU ETs accounts from national registries into a Union Registry. The Union Registry transition period is scheduled for June 3, 2012 through June 20, 2012. During this time, the operation of national registries and the single registry will be suspended and account holders will not be able to access registry accounts - including allowances held in these accounts; transfers will not be allowed through the registry. Pursuant to Green Exchange LLC (“GreenX” or “Exchange”) rules, all GreenX deliveries for the products listed in the table below are electronically transferred through the UK Emissions Trading Registry.

In light of these developments which will prevent deliveries of certain GreenX daily and monthly contracts from taking place during the period of June 3, 2012 through June 20, 2012, GreenX is notifying the Commodity Futures Trading Commission (“CFTC” or “Commission”) that it is self-certifying the partial delisting of certain contract days and contract months for the contracts listed in the table below. The contracts, which will be delisted effective immediately, have no open interest.

The only affected contracts along with the commodity codes, trading and clearing venues on which they are listed, and the delisted contract days and months, are provided in the table below.

Contract	Globex Code	ClearPort Code	Rulebook Chapter	Delisted Contracts
Daily European Union Allowance (EUA) Futures	EUL	EUL	1201	Contract day May 31, 2012 through contract day June 20, 2012
In Delivery Month (IDM) EUA Futures	EAF	6T	1101	Contract month June 2012
IDM Certified Emission Reduction (CER) Futures	CRE	6S	1104	Contract month June 2012
IDM EUA Options	EAX	6U	1102	Contract month June 2012
IDM CER Options	CRY	6P	1105	Contract month June 2012
Emission Reduction Unit (ERU) Futures	REU	REU	1110	Contract month June 2012
ERU Options	ERO	ERO	1111	Contract month June 2012

GreenX business staff responsible for the delisting of contract days and months in these contracts and the GreenX legal department collectively reviewed the designated contract market core principles (“Core Principles”) as set forth in the Commodity Exchange Act (“CEA” or “Act”). During the review, GreenX staff identified that the delisting of contract days and months may have some bearing on the following Core Principle:

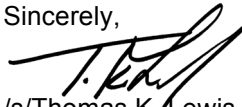

- Emergency Authority: There is no open interest in the contract days and months submitted for delisting and therefore, there will be no market disruption related to their delisting.

Pursuant to Section 5c(c) of the Act and CFTC Rule 40.6(a), the Exchange hereby certifies that the delisting of contract days and months in accordance with the table above complies with the Act, including regulations under the Act. There were no substantive opposing views to this proposal.

The Exchange certifies that this submission has been concurrently posted on the Exchange’s website under the “Market Regulation” tab at <http://www.thegreenx.com/market-regulation/pending-rules.html>.

If you have any further questions or comments about GreenX’s actions, please contact me at 212-299-2722.

Sincerely,

/s/Thomas K. Lewis, Jr.
Chief Executive Officer
