**RE: CME Chapter 365 & Chapter 366 – S&P 500 Technology and
Financial SPCTR Index Futures Contract Multipliers and Related
Changes
CME Submission No. 09-124**

Dear Mr. Stawick:

Chicago Mercantile Exchange Inc. ("CME" or "Exchange") hereby notifies the Commodity Futures Trading Commission ("Commission") of amendments to Chapter 365 and 366 of the CME Rulebook governing the S&P 500 Technology SPCTR Index futures and the S&P 500 Financial SPCTR Index futures.

The following amendments shall be applicable to both contracts, effective on the trade date of July 27, 2009. The contracts shall be amended to \$250 per index points from \$125 per index points. The minimum price variation shall remain at 0.10 index point for outright transactions, and 0.05 index point for calendar spreads. Due to the revision of contract multipliers, however, the dollar value associated with the minimum price variation shall be \$25.00 and \$12.50 for outright and spread transactions.

Further, following the revision of the contract multipliers, the position limits shall be revised to 12,500 contracts net long or short in all contract month combined, from the current limit of 25,000 contracts. The revision preserves the existing position limits in notional value terms.

In addition, there is no open interest in either contract. The Exchange shall temporarily suspend trading of the two contracts, effective immediately, to facilitate the amendments of the contract terms. Trading of the revamped contracts shall commence on the trade date of July 27, 2009.

The following tables show the changes in the contract terms and conditions:
