Internet Connectivity

To date, ELX FUTURES, L.P. (ELX Futures) has offered connectivity to the ELX platform through a dedicated network, connectivity partners, or co-location. Effective on September 28, 2009, ELX Futures will offer access for transmission of orders and market data through its secure internet connectivity solution, ELX Net.

At no additional cost, ELX Participants and Authorized Customers wishing to leverage their existing internet connectivity can establish connectivity to ELX Futures. Internet connection includes connection to primary and secondary data centers through diverse Tier 1 Internet providers. All communication through ELX Net is encrypted using 128-bit SSL.

Internet connectivity is also available for approved ISV and Data Providers.

Complete connectivity details are available in the Technology section of the ELX website at <http://www.elxfutures.com/Technology/Connectivity.aspx>
