RE: Certification of ELX Futures, L.P. Amendments to Rule IX-101 and Listing
Schedule for U.S. Treasury Bond Futures and Ultra Long-Term U.S. Treasury Bond
Futures.

Dear Mr. Stawick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended, and Commission Regulation 40.6, ELX Futures, L.P. ("ELX") submits, by self-certification, notification to the Commission that it will amend the delivery grade specification for its U.S. Treasury Bond Futures contract effective with the listing of the November 2011 contract. ELX will also resume its listing schedule for both the U.S. Treasury Bond Futures and Ultra Long-Term U.S. Treasury Bond Futures contracts for trade date October 28, 2010.

Description of Amendments

Contract specifications for the U.S. Treasury Bond Futures have been revised to change the range of deliverable grades of bonds to exclude bonds with maturities of 25 years or more. The new specifications will apply to the March 2011 and all subsequently listed contracts. This change does not impact the December 2010 U.S. Treasury Bond Futures contract. The amended rule will be effective for trade date October 28, 2010.

Additionally, ELX Futures will resume regular listing of contracts on trade date October 28, 2010 and will implement a schedule to list 3 consecutive quarterly contracts for each of its U.S. Treasury Bond Futures and Ultra Long-Term U.S. Treasury Bond Futures contracts. The schedule will follow a March, June, September and December quarterly cycle for delivery months.

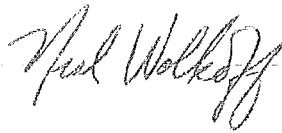

Amended rule language is provided as an attachment to this submission in a notice announcing these amendments.

ELX Futures has received no opposing views regarding these amendments.

ELX Futures hereby certifies to the CFTC, pursuant to the procedures set forth in CFTC Regulation 40.6 that the proposed rule amendments comply with the Commodity Exchange Act, as amended, and the regulations promulgated thereunder.

Please contact the undersigned at (212) 829-5241 if you have any questions or need additional information.

**AMENDED DELIVERY GRADE SPECIFICATIONS FOR U.S. TREASURY
BOND FUTURES AND RESUMPTION OF LISTING OF U.S. TREASURY BOND
AND ULTRA LONG-TERM U.S. TREASURY BOND FUTURES CONTRACTS**

Please be advised that ELX Futures, L.P. ("ELX Futures") will resume listing of additional contract months for its U.S. Treasury Bond Futures and Ultra Long-Term U.S. Treasury Bond Futures. This change to the listing schedule will be effective for trade date October 28, 2010.

Beginning with the effective date of this change, ELX Futures will list 3 consecutive quarterly contracts for each of its U.S. Treasury Bond Futures and Ultra Long-Term U.S. Treasury Bond Futures contracts and will follow a March, June, September and December quarterly cycle for delivery months.

Additionally, contract specifications for the U.S. Treasury Bond Futures have been revised to change the range of deliverable grades of bonds to exclude bonds with maturities of 25 years or more. The new specifications will apply to the March 2011 and all subsequently listed contracts. This change does not impact the December 2010 U.S. Treasury Bond Futures contract.

Amended rule language is provided as an appendix to this notice. The amended rule will be effective for trade date October 28, 2010 upon completion of self-certification of the rule change with the CFTC.

Please contact ELX Support at 877-359-6610/212-294-7771 or via e-mail at support@elxfutures.com with any questions.

Amendments to Rule IX-101 "U.S. Treasury Bond Futures"

Underline indicates additions; ~~strikethrough~~ indicates deletions.

IX-101 U.S. Treasury Bond Futures Rules

(a) *Scope of Chapter.* This section is limited in application solely to future trading in U.S. Treasury Bond Futures. The procedures for any matter not specifically discussed herein shall be governed by the Rules of the Exchange.

(b) *Contract Size.* One U.S. Treasury bond having face value at maturity of \$100,000.

(c) *Deliverable Grades.*

~~(i) This section applies to all contract months up to and including the December 2010 contract. U.S. Treasury bonds that, if callable, are not callable for at least 15 years from the first day of the delivery month or, if not callable, have a remaining term to maturity of at least 15 years from the first day of the delivery month. The invoice price equals the futures settlement price times a conversion factor, plus accrued interest. The conversion factor is the price of the delivered bond (\$1 par value) to yield 6 percent.~~

(e)(ii) This section applies to all contract months listed beginning with the March 2011 contract. U.S. Treasury bonds that, if callable, are not callable for at least 15 years from the first day of the delivery month and have maturities less than 25 years or, if not callable, have a remaining term to maturity of at least 15 years and less than 25 years from the first day of the delivery month. The invoice price equals the futures settlement price times a conversion factor, plus accrued interest. The conversion factor is the price of the delivered bond (\$1 par value) to yield 6 percent.

(Following rule language remains unchanged.)
