Submission No. 13-102 November 8, 2013

Mr. David Stawick Secretary of the Commission Office of the Secretariat Commodity Futures Trading Commission Three Lafayette Centre 1155 21<sup>st</sup> Street, NW Washington, DC 20581

Re: Implied Matching Engine to be Enabled for Henry LD1 Fixed Price Futures ICE Lots Market Submission Pursuant to Section 5c(c)(1) of the Act and Regulation 40.6(a)

Dear Mr. Stawick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended, and Commission Regulation 40.6(a), ICE Futures U.S., Inc. ("Exchange") submits notification to the Commission that the Exchange will enable the Implied Matching Engine ("IME") for the Henry LD1 Fixed Price Futures ICE Lots market on November 26, 2013.

The IME matches outright orders entered onto the electronic trading system ("ETS") against legs of calendar spread orders entered onto the ETS. The IME is not utilized for all Exchange contracts. One of the markets the IME functionality is currently utilized in is the Henry LD1 Fixed price Futures Flow Per Day market. The Exchange now intends to activate the IME for the related Henry LD1 Fixed Price Futures ICE Lots market. The Exchange believes that turning on the IME will tighten and deepen the outright and spread ICE Lots markets.

The Exchange certifies that the activation of the IME complies with the requirements of the Commodity Exchange Act and the rules and regulations promulgated thereunder. The Exchange further certifies that concurrent with this filing, a copy of this submission was posted on the Exchange's website, which may be accessed at (https://www.theice.com/notices/RegulatoryFilings.shtml).

If you have any questions or need further information, please contact me at 212-748-4021 or at jason.fusco@theice.com.

Sincerely,

Assistant General Counsel Market Regulation
