Washington, DC 20581

**RE: Section 5c(c)(1), Part 40.6(a)– Rule Certification for Removal of CME Rule 437
Nonfarm Payroll Futures. CME Submission 11-433**

Dear Mr. Stawick:

Chicago Mercantile Exchange Inc. ("CME" or "Exchange") hereby notifies the Commission that, effective on trade date of Monday, December 5, 2011, CME delisting Nonfarm Payroll futures and deleting CME Rule 437 Nonfarm Payroll Futures. Nonfarm Payroll futures have not traded since inception and there is no open interest. See the attached Appendix with rule deletions lined out.

Business staff responsible for the proposed changes and the legal department collectively reviewed the designated contract market ("DCM") core principles ("Core Principles") as set forth in the Commodity Exchange Act ("CEA"). During this review, it was determined that the removal of this rule did not impact any of Core Principles of DCMs.

The Exchange certifies that these rule amendments and procedures comply with the Act and the rules thereunder and that there were no substantive opposing views to this proposal.

The Exchange certifies that this submission has been concurrently posted on the Exchange's website at <http://www.cmegroup.com/market-regulation/rule-filings.html>.

Members/shareholders will be notified of the information contained herein in by CME Group Special Executive Report on Monday, December 5, 2011.

If you require any additional information, please do not hesitate to contact the undersigned at (312) 930-8167 or Sean.Downey@cmegroup.com. Please reference our CME Submission 11-433 on all future correspondence regarding this notification.

Sincerely,

/s/Sean M. Downey
Associate Director & Assistant General Counsel

Enclosures

Appendix 1

Chapter 437 Nonfarm Payroll Futures

43700. SCOPE OF CHAPTER

This chapter is limited in application to futures trading in the change in Nonfarm Payrolls published by the Bureau of Labor Statistics. The procedures for trading, clearing, delivery, settlement and any other matters not specifically contained herein shall be governed by the rules of the Exchange.

43701. COMMODITY SPECIFICATIONS

Each futures contract shall be valued at \$25.00 times the change in seasonally adjusted total Nonfarm Payrolls published by the U.S. Department of Labor, Bureau of Labor Statistics.

43702. FUTURES CALL

43702.A. Trading Schedule

Futures contracts shall be scheduled for trading and delivery during such hours and in such months as may be determined by the Board of Directors.

43702.B. Trading Unit

The size of the unit of trading shall be the \$25.00 times the change in seasonally adjusted total Nonfarm Payrolls published by the U.S. Department of Labor, Bureau of Labor Statistics.

43702.C. Price Increments

Bids and offers shall be quoted in terms of thousands of jobs. For example, a change in the Nonfarm Payrolls of +157,000 jobs shall be quoted as +157. The minimum fluctuation of the futures contract shall be 1 point (1,000 jobs) equivalent to \$25.00.

43702.D. Position Limits

A person shall not own or control more than 5,000 contracts net long or net short in all contract months combined. For positions involving options on Nonfarm Payroll futures, this rule is superseded by the options speculative position limit rule.

43702.E. Accumulation of Positions

For purposes of this rule, the positions of all accounts directly or indirectly owned or controlled by a person or persons, and the positions of all accounts of a person or persons acting pursuant to an expressed or implied agreement or understanding, and the positions of all accounts in which a person or persons have a proprietary or beneficial interest, shall be cumulated.

43702.F. Exemptions¹

The foregoing position limits shall not apply to bona fide hedge positions meeting the requirements of Regulation 1.3(z)(1) of the CFTC and the rules of the Exchange, and shall not apply to other positions except pursuant to Rule 559.

43702.G. Termination of Trading

Futures trading shall terminate at 7:25 a.m. (Chicago time) on the first Friday of the contract month or on such other day of the regularly scheduled release of the change in the Nonfarm Payrolls by the U.S. Department of Labor, Bureau of Labor Statistics, in the contract month.

43702.H. Contract Modifications

Specifications shall be fixed as of the first day of trading on a contract. If any governmental agency or body issues an order, ruling, directive or law that conflicts with the requirements of these rules, such order, ruling, directive or law shall be construed to take precedence and become part of these rules and all open and new contracts shall be subject to such government orders.

43702.I. Price Limits

A price limit of ± 200 points shall be applied to the final settlement price from the previous day's settlement price.

¹ Revised April 2008.

43703. SETTLEMENT PROCEDURES

~~Delivery under the Nonfarm Payroll futures contracts shall be by cash settlement.~~

43703.A. Final Settlement Price

~~The Final Settlement Price shall be the change in the seasonally adjusted total Nonfarm Payrolls, as reported per Table B-1, Employees on nonfarm payrolls by major industry sector and published by the U.S. Department of Labor, Bureau of Labor Statistics. The Final Settlement price shall be established at 7:30 Chicago time (8:30 Eastern time) on the first Friday of the month or such other regularly scheduled time and date on which the Bureau of Labor Statistics may release such information. The change in Nonfarm Payrolls is for the month prior to the contract month. For example, the April contract final settlement price will be the change in Nonfarm payrolls from February to March.~~

~~For the purpose of determining the Final Settlement Price, the Nonfarm Payrolls data as originally released shall be used. Subsequent revisions to the Nonfarm Payrolls data shall not be recognized.~~

43703.B. Final Settlement

~~Clearing members holding open positions in a Nonfarm Payroll futures contract at the time of termination of trading in that contract shall make payment to or receive payment from the Clearing House in accordance with normal variation performance bond procedures based on a settlement price equal to the final settlement price.~~

43704. ACTS OF GOVERNMENT, ACTS OF GOD AND OTHER EMERGENCIES

~~(Refer to Rule 701.—ACTS OF GOVERNMENT, ACTS OF GOD AND OTHER EMERGENCIES)~~

~~(End Chapter 437)~~

Appendix 2

MARKET REGULATION ADVISORY NOTICE

Exchange	CME & CBOT
Subject	Block Trades
Rule References	Rule 526
Advisory Date	December 5, 2011
Advisory Number	CME & CBOT RA1110-3

Effective immediately, this Advisory Notice supersedes CME & CBOT Market Regulation Advisory Notice RA1109-3 issued on October 3, 2011. It is being issued to remove CME Nonfarm Payroll futures and options from the list of block-eligible products based on today's delisting of those products.

CME and CBOT products in which block trading is permitted appear in Section 10 and the text of CME and CBOT Rule 526 appears in Section 12 of this Advisory Notice.

1. Definition of Block Trades

Block trades are privately negotiated futures, options or combination transactions that meet certain quantity thresholds which are permitted to be executed apart from the public auction market. All block trades are subject to the conditions set forth in CME and CBOT Rule 526 ("Block Trades") and in this Advisory Notice.

2. Participation in Block Trades

Each party to a block trade must be an Eligible Contract Participant as that term is defined in Section 1a(12) of the Commodity Exchange Act. Eligible Contract Participants generally include exchange members and member firms, broker/dealers, government entities, pension funds, commodity pools, corporations, investment companies, insurance companies, depository institutions and high net-worth individuals. Commodity trading advisors and investment advisors who are registered or exempt from registration, and foreign persons performing a similar role and subject as such to foreign regulation, may participate in block transactions provided they have total assets under management exceeding \$25 million and the block trade is suitable for their customers.

A customer order may be executed by means of a block trade only if the customer has specified that the order be executed as a block trade.

Orders may not be bunched to meet the minimum block quantity thresholds.

3. Time and Prices of Block Trades

Block trades may be executed at any time, including times during which the public auction market is closed.

Block trades must be transacted at prices that are "fair and reasonable" in light of (i) the size of the transaction, (ii) the prices and sizes of other transactions in the same contract at the relevant time, (iii) the prices and sizes of transactions in other relevant markets, including, without limitation, the underlying cash market or related futures markets, at the relevant time, and (iv) the circumstances of the markets or the parties to the block trade.

The trade price must be consistent with the minimum tick increment for the market in question. Additionally, each outright transaction and each leg of any block eligible spread or combination trade must be executed at a single price.

Block trade prices are reported independently of transaction prices in the regular market and are not included as part of the daily trading range. Block trade prices do not elect conditional orders (e.g. stop orders) or otherwise affect orders in the regular market.

4. Block Trade Minimum Quantities for Outrights, Spreads and Combinations

The block trade minimum quantity requirements for outright futures and options are set forth in the list of block trade eligible products in Section 10 of this Advisory Notice. Additional information with respect to spreads and combinations executed as blocks appears below.

a) Intra-Commodity Futures Spreads and Futures Combinations

i) All Products Excluding U.S. Treasury, OTR Treasury Yield, Interest Rate Swap and GSCI Futures

Intra-commodity futures spreads and futures combinations may be executed as block trades provided that the **sum** of the quantities of the legs meets the minimum block quantity threshold. For example, 2,000 Eurodollar future calendar spreads executed during RTH hours would meet the Eurodollar futures minimum quantity requirement of 4,000 contracts.

ii) U.S. Treasury, OTR Treasury Yield and Interest Rate Swap Futures

Intra-commodity calendar spread block trades are prohibited in CBOT U.S. Treasury futures, OTR Treasury Yield and Interest Rate Swap futures. Parties may not execute contingent block trades in outright contracts to circumvent the prohibition on the execution of block trades in intra-commodity calendar spreads. Additionally, Tandem spreads may not be executed as block trades.

iii) GSCI Futures

In GSCI futures and GSCI Excess Return Index futures the block trade minimum is 300 contracts for each leg of the spread or combination. For example, the minimum quantity for a GSCI calendar spread would require 300 contracts in each leg of the spread for a total of 600 contracts while a GSCI futures butterfly would require a minimum volume of 1,200 contracts.

b) Inter-Commodity Futures Spreads

i) Short Term Interest Rate Futures

In Short Term Interest Rate futures (Eurodollars, Eurodollar E-minis, Euribor, T-Bills, OIS, One-Month Eurodollar, Euroyen and 30-Day Fed Funds), inter-commodity futures spreads may be executed as block trades provided that the **sum of the legs of the spread** meets the **larger** of the threshold requirements for the underlying products. For example, the minimum quantity thresholds for One-Month Eurodollar and Eurodollars during ETH are 200 and 2,000 contracts, respectively. Therefore, a block trade in the One-Month Eurodollar/Eurodollar spread can be executed provided that the sum of the legs is at least 2,000 contracts.

ii) U.S. Treasury, OTR Treasury Yield, Interest Rate Swap and 10-Year Sovereign Yield Spread Futures

In U.S. Treasury, OTR Treasury Yield, Interest Rate Swap and 10-Year Sovereign Yield Spread futures, inter-commodity futures spreads may be executed as block trades provided that **each leg of the spread** meets the minimum threshold requirement for the respective underlying products. For example, the minimum quantity thresholds for 10-Year Notes and U.S. Treasury Bonds during RTH are 5,000 and 3,000 contracts, respectively. Therefore, a block trade in the NOB spread (10-Year Note/Treasury Bond spread) can be executed only if the minimum quantity of the 10-Year Note leg of the spread is at least 5,000 contracts and the minimum quantity of the Treasury Bond leg of the spread is at least 3,000 contracts.

iii) All Other Products

In all other block-eligible products, inter-commodity futures spreads may be executed as block trades provided that the quantity of **each leg of the spread** meets the **larger** of the threshold requirements for the underlying products.

c) Intra-Commodity Option Spreads and Combinations

Intra-commodity option spreads and combinations may be executed as block trades provided that the quantity of **each leg of the spread** meets the designated minimum quantity threshold.

d) Inter-Commodity Option Spreads and Combinations

Inter-commodity option spreads and combinations may be executed as block trades provided that the quantity of **each leg of the spread** meets the **larger** of the threshold requirements for the underlying products.

e) Options/Futures Spreads

In general, options/futures spreads may be executed as block trades provided that the options component of the spread meets the minimum quantity threshold for the outright option or option combination and the quantity of futures executed is consistent with the delta of the options component of the spread. An exception applies to Weather, Real Estate and Non-Farm Payroll options/futures spreads, where the legs of the spread may be summed to meet the 20-contract minimum threshold.

5. Block Trade Reporting Requirements

a) Time Requirements

i) Interest Rate Block Trades

Block trades must be reported to the Exchange by the seller within **five minutes** of the transaction for block trades executed during RTH and within **fifteen minutes** of the transaction for block trades executed during ETH and ATH. For purposes of interest rate block trades, RTH, ETH and ATH are defined in Section 10 of this Notice.

ii) Other Block Trades Excluding Interest Rates, Weather and Housing Block Trades

Block trades must be reported to the Exchange by the seller within **five minutes** of the transaction.

iii) Weather and Housing Block Trades

Block trades must be reported to the Exchange by seller within **fifteen minutes** of the transaction.

b) Reporting Methods

Block trades must be reported to the Exchange via one of the following methods.

i) Globex Control Center ("GCC")

All block trades (except for block trades in Weather futures and options executed between 8:00 a.m. and 3:30 p.m. Chicago time, Monday – Friday on regular business days – see subsection iv below) may be reported to the GCC. The seller reports the trade by calling the GCC at **312.456.2391**. When the GCC is closed – for example, during the weekend – the block trade must be reported no later than five minutes prior to the opening of the next electronic trading session for that product.

ii) CME ClearPort

Block trades may be electronically reported directly to CME Clearing via CME ClearPort. For information on reporting block trades through CME ClearPort, please contact customer service at 1.800.438.8616 or via email at ClearPort@cmegroup.com.

iii) CME Clearing360 Trade Reporter

Block trades may be electronically reported directly to CME Clearing via CME Clearing360 Trade Reporter, available through the CME EOS Trader web-based front end. For additional information on reporting block trades via CME Clearing360 Trade Reporter, please visit <http://cmegroup.com/clearing/trading-practices/cme-clearing360-tradereporter.html> or contact CME Clearing Customer Support at 312.207.2525 or via email at CCS@cmegroup.com

iv) Weather Blocks on CME Clearing360 via Pivot Instant Markets

Block trades in Weather futures and options may be electronically reported directly to CME Clearing360 via Pivot Instant Markets by eligible inter-dealer brokers. For additional information on reporting block trades via Pivot Instant Markets, please contact Angie DiCarlo, Associate Director, CME Group Alternative Investments at 312.930.4515 or via email at Angie.DiCarlo@cmegroup.com.

v) Weather Block Trades Executed Between 8:00 a.m. and 3:30 p.m.

Block trades in Weather futures and options executed between 8:00 a.m. and 3:30 p.m. Chicago time, Monday – Friday on regular business days should be reported to Exchange staff by calling 312.648.3935 or 312.648.3936.

When reporting a block trade, the following information will be required:

- Name and phone number of the clearing firm representative reporting the trade (unless the block trade is electronically reported);
- Buyer's clearing firm and seller's clearing firm;
- Contract, contract month and contract year for futures;
- Contract, contract month, contract year, strike price and put or call designation for standard options, as well as the expiration date and exercise style for flex options;
- Quantity of the trade or, for spreads and combinations, the quantity of each leg of the trade;
- Price of the trade or, for spreads and combinations, the price of each leg of the trade; and
- Execution time (in Central Time) of the trade (i.e. the time at which the trade was consummated).

6. Block Trade Submission Requirements to CME Clearing

Block trades reported to the GCC or Exchange staff as described in numbers i) or v) above must be submitted to CME Clearing through the Front-End Clearing ("FEC") User Interface via the portal under BLOCK entry. For block trades executed between 6:00 a.m. and 6:00 p.m. **Central Time**, firms must submit the trade within one hour. For block trades executed between 6:00 p.m. and 6:00 a.m. **Central Time**, firms must submit the trade no later than 7:00 a.m. **Central Time**.

Block trades are entered by both the buyer's and seller's clearing firm and go through a two-sided match process. Upon entry, confirmation records will be routed back to the firms for bookkeeping purposes. When reporting spread or combination transactions, each leg must be entered individually. The execution time is required to be entered and must be the actual time at which the transaction was consummated by the two parties, not the time at which the trade is reported by the parties to their respective firms. Thus, if the clearing member has not acted as either principal or agent in the transaction, it must ensure that its customer provides an accurate execution time.

A block trade in a block-eligible option may be executed up to and including the day on which an option contract expires for purposes of offsetting an open option position. The offsetting block trade must be reported to the GCC pursuant to the requirements of section 4 above, and the offset must be reported to CME Clearing no later than the Position Change Submission ("PCS") deadline on the day on which the option contract expires. The current PCS deadline is 7:30 p.m. Central Time.

7. Block Trade Recordkeeping

Complete order records for block trades must be created and maintained pursuant to Rule 536 and CFTC Regulations. However, as noted in Section 5, the time of execution of the block trade must also be recorded.

8. Dissemination of Block Trade Information

The date, execution time, contract details, price and quantity of block trades are reported upon receipt of the block information by GCC. Block trade information is reported on the MerQuote system and may be accessed by entering the code "BLK". The information will also be displayed on cmegroup.com at the following link: <http://www.cmegroup.com/tools-information/blocktrades.html>. Block trade information is also displayed on the trading floor.

Block trade prices are published separately from transactions in the regular market. Block trade volume is also included with other privately negotiated transactions in the daily volume reports published by the exchange.

9. Pre-Execution Communications

The prohibition on prearranged trading and the requirements related to pre-execution communications with respect to certain Globex trades set forth in Rule 539 do not apply to block trades.

10. CME & CBOT Block Trade-Eligible Products

For purposes of the interest rate products in the tables, the following times apply:

ETH: 12:00 a.m. – 7:00 a.m. CT, Monday through Friday on regular business days

RTH: 7:00 a.m. – 4:00 p.m. CT, Monday through Friday on regular business days

ATH: 4:00 p.m. – 12:00 a.m. CT, Monday through Friday on regular business days and at all times on weekends

CME Products	Futures	Options	Flex Options

12. Text of CME & CBOT Rule 526

Rule 526 BLOCK TRADES

The Exchange shall designate the products in which block trades shall be permitted and determine the minimum quantity thresholds for such transactions. The following shall govern block trades:

- A. A block trade must be for a quantity that is at or in excess of the applicable minimum threshold. Orders may not be aggregated in order to achieve the minimum transaction size, except by those entities described in Sections I. and J.
- B. Each party to a block trade must be an Eligible Contract Participant as that term is defined in Section 1a(12) of the Commodity Exchange Act.
- C. A member shall not execute any order by means of a block trade for a customer unless such customer has specified that the order be executed as a block trade.
- D. The price at which a block trade is executed must be fair and reasonable in light of (i) the size of the block trade, (ii) the prices and sizes of other transactions in the same contract at the relevant time, (iii) the prices and sizes of transactions in other relevant markets, including without limitation the underlying cash market or related futures markets, at the relevant time, and (iv) the circumstances of the markets or the parties to the block trade.
- E. Block trades shall not set off conditional orders (e.g., Stop Orders and MIT Orders) or otherwise affect orders in the regular market.
- F. **CME** - The seller must ensure that each block trade is reported to the Exchange within five minutes of the time of execution; except that block trades in interest rate futures and options executed outside of Regular Trading

Hours (7:00 a.m. – 4:00 p.m. Central Time, Monday – Friday on regular business days) and Housing and Weather futures and options must be reported within fifteen minutes of the time of execution. The report must include the contract, contract month, price, quantity of the transaction, the respective clearing members, the time of execution, and, for options, strike price, put or call and expiration month. The Exchange shall promptly publish such information separately from the reports of transactions in the regular market.

- F. **CBOT** - The seller must ensure that each block trade is reported to the Exchange within five minutes of the time of execution; except that block trades in interest rate futures and options executed outside of Regular Trading Hours (7:00 a.m. – 4:00 p.m. Central Time, Monday – Friday on regular business days) must be reported within fifteen minutes of the time of execution. The report must include the contract, contract month, price, quantity of the transaction, the respective clearing members, the time of execution, and, for options, strike price, put or call and expiration month. The Exchange shall promptly publish such information separately from the reports of transactions in the regular market.
- G. Block trades must be reported to the Clearing House in accordance with an approved reporting method.
- H. Clearing members and members involved in the execution of block trades must maintain a record of the transaction in accordance with Rule 536.
- I. A commodity trading advisor ("CTA") registered or exempt from registration under the Act, including, without limitation, any investment advisor registered or exempt from registration under the Investment Advisors Act of 1940, shall be the applicable entity for purposes of Sections A., B., C., and D., provided such advisors have total assets under management exceeding \$25 million and the block trade is suitable for the customers of such advisors.
- J. A foreign Person performing a similar role or function to a CTA or investment advisor as described in Section I, and subject as such to foreign regulation, shall be the applicable entity for purposes of Sections A., B., C., and D., provided such Persons have total assets under management exceeding \$25 million and the block trade is suitable for the customers of such Persons.
