**Re: Extension of Terms of FX Member Firm Fee Program -
Submission Pursuant to Section 5c(c)(1) of the Act and Regulation 40.6**

Dear Ms. Jurgens:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended, and Commission Regulation 40.6, ICE Futures U.S., Inc. (“Exchange”) submits, by written certification, notice that the Exchange is extending the terms of the FX Member Firm Fee Program (“the Program”) through December 31, 2015. The Program is open to any firm that is a member of IFUS or which owns or leases a membership or trading rights instrument in any of the following exchanges: CME, CBOT, CBOE, NYMEX and ISE. Firms that are participants in the program receive a discounted rate of 60 cents per side for all U.S. Dollar Index and currency pair volume executed for their proprietary account. In addition, participants who trade at least 500 lots of currency pair volume receive a further discounted rate of 30 cents per side. Participants will be required to apply on an annual basis. Application materials for the Program, which will be posted on the Exchange’s website, are attached hereto as Exhibit A.

The Program was scheduled to terminate on December 31, 2013. However, the Exchange believes that the program has helped tighten markets in the covered products and that termination of the program may reduce liquidity. Therefore, the Exchange is extending the Program through December 31, 2015; provided, however, that the Exchange in its sole discretion may cancel the Program prior to December 31, 2015. All other Program terms remain unchanged.

The Exchange certifies that the Program complies with the requirements of the Commodity Exchange Act and the rules and regulations promulgated thereunder. In particular, the amendments comply with Core Principle 4 (Monitoring of Trading), Core Principle 9 (Execution of Transactions) and Core Principle 12 (Protection of Market Participants). The Program is structured so that they do not create incentives for participants to engage in market abuses such as manipulative trading or wash sales. In addition, the Exchange’s Market Regulation Department actively monitors for trading abuses using electronic exception reports and will take appropriate action against any participants engaging in market abuses. The Program does not impact order execution priority or otherwise give participants any execution preference or advantage.

The Exchange further certifies that, concurrent with this filing, a notice of pending certification was posted on the Exchange's website. The Program was approved by the President on December 11, 2013. The Exchange is not aware of any substantive opposing views with respect to the extension, which will become effective on January 2, 2014.
