Washington, DC 20581

**RE: Stock Index Five Percent Overnight Price Limit Policies
CME Submission No. 08-207**

Dear Mr. Stawick:

Chicago Mercantile Exchange Inc. ("CME") hereby notifies the Commission of the amendments to its Rules governing daily price limits in the context of its domestic stock index futures, in accordance with Sec. 5c(c)(1) of the CEA and Regulation Sec. 40.6(a). These amendments were authorized by the Exchange's Approving Officers on December 26, 2008 under their authority in CME Rule 230.j.

In response to recent market volatility, CME will apply the modified 5% overnight price limits to all domestic stock index futures including: (1) Standard and Poor's 500 Stock Price Index™ Futures; (2) Standard and Poor's Midcap 400 Stock Price Index™ Futures; (3) S&P 500/ CITIGROUP Growth Index Futures; (4) S&P 500/ CITIGROUP Value Index Futures; (5) NASDAQ 100 Index Futures; (6) E-mini Standard and Poor's 500 Stock Price Index Futures; (7) E-mini NASDAQ 100 Index Futures; (8) E-Mini™ NASDAQ® Biotechnology Index Futures; (9) E-mini Standard and Poor's Midcap 400® Stock Price Index Futures; (10) S&P 500/ Technology SPCTR™ Futures; (11) S&P 500/ Financial SPCTR™ Futures; (12) E-Mini S&P Smallcap 600 Index™ Futures; (13) E-mini NASDAQ Composite Index Futures and (14) S&P SmallCap 600 Index™ Futures.

Under the current procedure, if the market reaches the overnight limit and remains there until the opening of the Regular Trading Hours (RTH), the futures market loses its ability to provide price discovery prior to the opening of the underlying cash market. In adopting the new procedure, the futures market will regain an ability to provide this critical function under distressful market conditions without altering the overnight limits themselves.

Under the amendment, if the market is locked limited at 8:15 a.m. (15 minutes prior to Regular Trading Hours) and remains so at 8:25 a.m. (5 minutes prior to RTH), the market will be halted and put in pre-open again to provide an Indicative Opening Price (IOP) in anticipation of a re-open on RTH, with the RTH limits in place. While the rule is uniform across all the standard and E-mini contracts, the new procedure will only be applicable for the E-mini contracts since the regular sized contracts conclude trading at 8:15 a.m. Chicago Time.

Mr. David Stawick

December 29, 2008

CME certifies that these changes comply with the Commodity Exchange Act and regulations thereunder.

The text of these amendments is included in the Appendix 1 below, with additional underlined and deletions bracketed and overstruck. A clean copy of these Rules is contained in Appendix 2 below. These amendments will become effective Sunday, January 11, 2009, for trade day of Monday, January 12, 2008.

Please do not hesitate to contact Ms. Lucy Wang at 312-648-5478 or lucy.wang@cmegroup.com or me at 312-648-5422 if any questions arise during the processing of this submission. Please reference our CME Submission No. 08-207 on all future correspondence for this submission.

Sincerely,

/s/ Stephen M. Szarmack
Director and Associate General Counsel

Appendix 1: Amended Rules

(Deletions are bracketed and overstruck while additions are underlined.)

Chapter 351

Standard and Poor's 500 Stock Price Index™ Futures

35102. FUTURES CALL

[35102.A. – 35102.H remains unchanged.]

35102.I. Price Limits, Trading Halts, and/or Trading Hours¹

Daily price limits and trading halts of the S&P 500 Stock Price Index futures contract shall be coordinated with trading halts of the underlying stocks listed for trading in the securities markets.

For the purpose of this rule, the primary futures contract shall be defined as the futures contract trading in the lead month configuration in the pit and Exchange staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, there will be an implied previous business day's settlement price, created by the Exchange for the sole purpose of establishing price limits. The implied settlement price will be created by extrapolating the annualized percentage carry between the two contract months immediately prior to the newly listed contract.

Price Limits: There shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Settlement Price of the preceding RTH session calculated as provided below.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the current primary futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence, that limit shall apply until a corresponding limit for the E-mini S&P 500 futures contract ceases to apply, pursuant to Rule 35802.I. If a two-minute trading halt follows for the E-mini S&P 500 futures contract, trading in S&P 500 futures also shall terminate for that two-minute period, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence, that limit shall apply until a corresponding limit for the E-mini S&P 500 futures contract ceases to apply, pursuant to Rule 35802.I. If a two-minute trading halt follows for the E-mini S&P 500 futures contract, trading in S&P 500 futures also shall terminate for that two-minute period, after which time the market shall reopen. The 30% Price Limit shall apply to such reopening and shall represent the Total Daily Price Limit.

Trading Halts: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the S&P 500 Index futures contract shall resume.

¹ Adopted January 1988; effective March 28, 1988; Revised March 1988; October 1988; June 1990; December 1990; December 1992; June 1993; October 1994; July 1996; February 1997; October 1997; February 1998; April 1998; January 1999; November 2000; May 2001, December 2007, January 2008.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the S&P 500 Index futures contract shall continue and the next applicable Price Limit shall apply.

Opening Time²: If either a trading halt was in effect or the primary futures contract was locked at a limit at the close of trading, then the opening time of trading on GLOBEX shall be delayed until 6:00 p.m.

During Electronic Trading Hours (ETH), there shall be no trading of S&P 500 futures at a price more than the 5.0% Price Limit above or below the Reference RTH Price. If the market is limit bid or limit offered fifteen (15) minutes prior to the opening of the RTH, and remains limit bid or limit offered five (5) minutes prior to the opening of the RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH). During the trading halt, the Exchange shall provide an indicative opening price for the re-opening of trading on GLOBEX, if applicable, pursuant to Rule 573. [during a period commencing two minutes prior to the opening of RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH).] Once RTH commences, the next applicable trading limit shall be in effect.

[Remainder of Chapter 351 remains unchanged.]

² Adopted April 1988; Revised June 1990; February 1997; April 1998; April 2001; May 2001. Renumbered July 1996, December 2007.

Chapter 353
Standard and Poor's Midcap 400 Stock Price Index™ Futures

35302. FUTURES CALL

[35302.A. – 35302.H remains unchanged.]

35302.I. Price Limits, Trading Halts, and/or Trading Hours³

Daily price limits and trading halts of the Standard and Poor's MidCap 400 Stock Price Index futures contract shall be coordinated with trading halts of the underlying stocks listed for trading in the securities markets.

For the purpose of this rule, the primary futures contract shall be defined as the futures contract trading in the lead month configuration in the pit and Exchange staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, there will be an implied previous business day's settlement price, created by the Exchange for the sole purpose of establishing price limits. The implied settlement price will be created by extrapolating the annualized percentage carry between the two contract months immediately prior to the newly listed contract.

Price Limits: There shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Settlement Price of the preceding RTH session calculated as provided below.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the current primary futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence, that limit shall apply until a corresponding limit for the S&P MidCap 400 futures contract ceases to apply, pursuant to Rule 36202.I. If a two-minute trading halt follows for the E-mini S&P MidCap 400 futures contract, trading in S&P MidCap 400 futures also shall terminate for that two-minute period, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence, that limit shall apply until a corresponding limit for the E-mini S&P MidCap 400 futures contract ceases to apply, pursuant to Rule 36202.I. If a two-minute trading halt follows for the E-mini S&P MidCap 400 futures contract, trading in S&P MidCap 400 futures also shall terminate for that two-minute period, after which time the market shall reopen. The 30% Price Limit shall apply to such reopening and shall represent the Total Daily Price Limit.

Trading Halts: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the S&P MidCap 400 Index futures contract shall resume.

¹ Revised December 1992; June 1993; July 1996; February 1997; October 1997; February 1998; April 1998; January 1999; November 2000; May 2001, December 2007, January 2008.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the S&P MidCap 400 Index futures contract shall continue and the next applicable Price Limit shall apply.

Opening Time⁴: The opening time of trading on GLOBEX will be the same as the opening time of GLOBEX trading of S&P 500 contracts. In particular, the opening time of GLOBEX trading will be delayed until 6:00 p.m. if GLOBEX trading of S&P 500 contracts is delayed until 6:00 p.m.

During Electronic Trading Hours (ETH), there shall be no trading of S&P MidCap 400 futures at a price more than the 5.0% Price Limit above or below the Reference RTH Price. If the market is limit bid or limit offered fifteen (15) minutes prior to the opening of the RTH, and remains limit bid or limit offered five (5) minutes prior to the opening of the RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH). During the trading halt, the Exchange shall provide an indicative opening price for the re-opening of trading on GLOBEX, if applicable, pursuant to Rule 573. [~~during a period commencing two minutes prior to the opening of RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH).~~] Once RTH commences, the next applicable trading limit shall be in effect.

[Remainder of Chapter 356 remains unchanged.]

⁸ Revised December 2007.

Chapter 357: NASDAQ 100 Index Futures

35702. FUTURES CALL

[35702.A. – 35702.H remains unchanged.]

35702.I. Price Limits, Trading Halts, and/or Trading Hours⁹

Daily price limits and trading halts of the NASDAQ 100 Stock Price Index futures contract shall be coordinated with trading halts of the underlying stocks listed for trading in the securities markets.

For the purpose of this rule, the primary futures contract shall be defined as the futures contract trading in the lead month configuration in the pit and Exchange staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, there will be an implied previous business day's settlement price, created by the Exchange for the sole purpose of establishing price limits. The implied settlement price will be created by extrapolating the annualized percentage carry between the two contract months immediately prior to the newly listed contract.

Price Limits: There shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Settlement Price of the preceding RTH session calculated as provided below.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the current primary futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence, that limit shall apply until a corresponding limit for the E-mini Nasdaq 100 futures contract ceases to apply, pursuant to Rule 35802.I. If a two-minute trading halt follows for the E-mini Nasdaq 100 futures contract, trading in Nasdaq 100 futures also shall terminate for that two-minute period, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence, that limit shall apply until a corresponding limit for the E-mini Nasdaq 100 futures contract ceases to apply, pursuant to Rule 35802.I. If a two-minute trading halt follows for the E-mini Nasdaq 100 futures contract, trading in Nasdaq 100 futures also shall terminate for that two-minute period, after which time the market shall reopen. The 30% Price Limit shall apply to such reopening and shall represent the Total Daily Price Limit.

Trading Halts: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the Nasdaq 100 Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended

⁹ Adopted January 1988; effective March 28, 1988; Revised March 1988; October 1988; June 1990; December 1990; December 1992; June 1993; October 1994; July 1996; February 1997; October 1997; February 1998; April 1998; January 1999; November 2000; May 2001, December 2007, January 2008.

after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the Nasdaq 100 Index futures contract shall continue and the next applicable Price Limit shall apply.

Opening Time¹⁰: If either a trading halt was in effect or the primary futures contract was locked at a limit at the close of trading, then the opening time of trading on GLOBEX shall be delayed until 6:00 p.m.

During Electronic Trading Hours (ETH), there shall be no trading of Nasdaq 100 futures at a price more than the 5.0% Price Limit above or below the Reference RTH Price. If the market is limit bid or limit offered fifteen (15) minutes prior to the opening of the RTH, and remains limit bid or limit offered five (5) minutes prior to the opening of the RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH). During the trading halt, the Exchange shall provide an indicative opening price for the re-opening of trading on GLOBEX, if applicable, pursuant to Rule 573. ~~[during a period commencing two minutes prior to the opening of RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH).]~~ Once RTH commences, the next applicable trading limit shall be in effect.

[Remainder of Chapter 357 remains unchanged.]

Chapter 358: E-mini Standard and Poor's 500 Stock Price Index Futures

35802. FUTURES CALL

[35802.A. – 35802.H remains unchanged.]

35802.I. Price Limits, Trading Halts, and/or Trading Hours¹¹

Daily price limits and trading halts of the E-mini S&P 500 Stock Price Index futures contract shall be coordinated with trading halts of the underlying stocks listed for trading in the securities markets.

For the purpose of this rule, the primary E-mini futures contract shall be defined as the nearest E-mini S&P 500 futures contract. The Equity Price Limit Committee shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, the implied settlement price will be the most recent daily settlement of the S&P 500 futures contract whose expiration date matches that of the newly listed contract.

Price Limits: For purpose of rules determining price limits and trading halts, RTH and ETH refer to, respectively, the Regular Trading Hours and the Electronic Trading Hours of the Standard and Poor's 500 Stock Price Index Futures.

At the open of RTH, there shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Reference RTH Price.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the S&P 500 futures contract whose expiration date matches that of the current primary E-mini futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price limit shall apply to such reopening.

Trading Halts: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the E-mini S&P 500 Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in

¹¹ Adopted January 1988; effective March 28, 1988; Revised March 1988; October 1988; June 1990; December 1990; December 1992; June 1993; October 1994; July 1996; February 1997; October 1997; February 1998; April 1998; January 1999; November 2000; May 2001, December 2007, January 2008.

the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the E-mini S&P 500 Index futures contract shall continue and the next applicable Price Limit shall apply.

Opening Time¹²: If either a trading halt was in effect or the primary futures contract was locked at a limit at the close of trading, then the opening time of trading on GLOBEX shall be delayed until 6:00 p.m.

During Electronic Trading Hours (ETH), there shall be no trading of E-mini S&P 500 futures at a price more than the 5.0% Price Limit above or below the Reference RTH Price. If the market is limit bid or limit offered fifteen (15) minutes prior to the opening of the RTH, and remains limit bid or limit offered five (5) minutes prior to the opening of the RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH). During the trading halt, the Exchange shall provide an indicative opening price for the re-opening of trading on GLOBEX, if applicable, pursuant to Rule 573. [~~during a period commencing two minutes prior to the opening of RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH).~~] Once RTH commences, the next applicable trading limit shall be in effect.

Chapter 359: E-mini NASDAQ 100 Index® Futures

35902. FUTURES CALL

[35902.A. – 35902.H remains unchanged.]

35902.I. Price Limits, Trading Halts, and/or Trading Hours¹³

Daily price limits and trading halts of the E-mini Nasdaq 100 Stock Price Index futures contract shall be coordinated with trading halts of the underlying stocks listed for trading in the securities markets.

For the purpose of this rule, the primary E-mini futures contract shall be defined as the nearest E-mini Nasdaq 100 futures contract month. Exchanges staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, the implied settlement price will be the most recent daily settlement for the Nasdaq 100 Index futures contract whose expiration date matches that of the newly listed contract.

Price Limits: For purpose of rules determining price limits and trading halts, RHT and ETH refer to, respectively, the Regular Trading Hours and the Electronic Trading Hours of the Nasdaq 100 Index Futures.

At the open of the RTH, there shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Reference RTH Price.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the Nasdaq 100 Index futures contract whose expiration date matches that of the current primary E-mini futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows:

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price limit shall apply to such reopening.

Trading Halts: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the E-mini NASDAQ 100 Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in

¹³ Adopted January 1988; effective March 28, 1988; Revised March 1988; October 1988; June 1990; December 1990; December 1992; June 1993; October 1994; July 1996; February 1997; October 1997; February 1998; April 1998; January 1999; November 2000; May 2001, December 2007, January 2008.

the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. Chapter 360
E-Mini™ NASDAQ® Biotechnology Index Futures¹⁵

36002. FUTURES CALL

[36002.A. – 36002.H remains unchanged.]

36002.I. Price Limits, Trading Halts, and/or Trading Hours

Daily price limits and trading halts of the E-Mini Nasdaq Biotechnology Index futures contract shall be coordinated with trading halts of the underlying stocks listed for trading in the securities markets.

For the purpose of this rule, the primary E-Mini futures contract shall be defined as the futures contract trading in the lead month and Exchange staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, there will be an implied previous business day's settlement price, created by the Exchange for the sole purpose of establishing price limits. The implied settlement price will be created by extrapolating the annualized percentage carry between the two contract months immediately prior to the newly listed contract.

Price Limits: There shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Settlement Price of the preceding trading session calculated as provided below.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the current primary futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.¹⁶

Trading Halts: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the E-Mini NASDAQ Biotechnology Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended

¹⁵ Listed for trading September 2005

¹⁶ Revised December 2007; January 2008.

after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the E-Mini Nasdaq Biotechnology Index futures contract shall continue and the next applicable Price Limit shall apply.

Opening Time¹⁷: The opening time of trading on GLOBEX will be the same as the opening time of GLOBEX trading of S&P 500 contracts. In particular, the opening time of GLOBEX trading will be delayed until 6:00 p.m. if GLOBEX trading of S&P 500 contracts is delayed until 6:00 p.m.

During Electronic Trading Hours (ETH), there shall be no trading of E-Mini Nasdaq Biotechnology Index futures at a price more than the 5.0% Price Limit above or below the Reference RTH Price. If the market is limit bid or limit offered fifteen (15) minutes prior to the opening of the RTH, and remains limit bid or limit offered five (5) minutes prior to the opening of the RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH). During the trading halt, the Exchange shall provide an indicative opening price for the re-opening of trading on GLOBEX, if applicable, pursuant to Rule 573. [~~during a period commencing two minutes prior to the opening of RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH).~~] Once RTH commences, the next applicable trading limit shall be in effect.

The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

Trading Halts²⁷: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the E-Mini S&P SmallCap 600 Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in

²⁶ Revised December 2007.

²⁷ Revised December 2007; January 2008.

the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the E-Mini S&P SmallCap 600 Index futures contract shall continue and the next applicable Price Limit shall apply.

Opening Time²⁸: The opening time of trading on GLOBEX will be the same as the opening time of GLOBEX trading of S&P 500 contracts. In particular, the opening time of GLOBEX trading will be delayed until 6:00 p.m. if GLOBEX trading of S&P 500 contracts is delayed until 6:00 p.m.

During Electronic Trading Hours (ETH), there shall be no trading of E-Mini S&P SmallCap 600 futures at a price more than the 5.0% Price Limit above or below the Reference RTH Price. If the market is limit bid or limit offered fifteen (15) minutes prior to the opening of the RTH, and remains limit bid or limit offered five (5) minutes prior to the opening of the RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH). During the trading halt, the Exchange shall provide an indicative opening price for the re-opening of trading on GLOBEX, if applicable, pursuant to Rule 573. [~~during a period commencing two minutes prior to the opening of RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH).~~] Once RTH commences, the next applicable trading limit shall be in effect.

Chapter 377
E-mini NASDAQ Composite Index Futures

37702. FUTURES CALL

[37702.A. – 37702.H remains unchanged.]

37702.I. Price Limits, Trading Halts, and/or Trading Hours

Daily price limits and trading halts of the E-Mini NASDAQ Composite Index futures contract shall be coordinated with trading halts of the underlying stocks listed for trading in the securities markets.

For the purpose of this rule, the primary futures contract shall be defined as the futures contract trading in the lead month configuration in the pit and Exchange staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, there will be an implied previous business day's settlement price, created by the Exchange for the sole purpose of establishing price limits. The implied settlement price will be created by extrapolating the annualized percentage carry between the two contract months immediately prior to the newly listed contract.

Price Limits²⁹: There shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Settlement Price of the preceding RTH session calculated as provided below.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the current primary futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

Trading Halts³⁰: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the E-Mini NASDAQ Composite Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the E-

³¹ Revised December 2007.

Chapter 380
S&P SmallCap 600 Index™ Futures

38002. FUTURES CALL

[38002.A. – 38002.H remains unchanged.]

38002.I. Price Limits, Trading Halts and/or Trading Hours

Daily price limits and trading halts of the S&P SmallCap 600 Index futures contract shall be coordinated with trading halts of the underlying securities listed for trading in the securities markets.

For the purpose of this rule, the primary futures contract shall be defined as the nearest S&P SmallCap 600 Index futures contract month. Exchange staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, there will be an implied previous business day's settlement price, created by the Exchange for the sole purpose of establishing price limits. The implied settlement price will be created by extrapolating the annualized percentage carry between the two contract months immediately prior to the newly listed contract.

Price Limits³²: There shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Settlement Price of the preceding RTH session calculated as provided below.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the current primary futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 Index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence, that limit shall apply until a corresponding limit for the E-mini S&P SmallCap 600 futures contract ceases to apply, pursuant to Rule 36802.1. If a two-minute trading halt follows for the E-mini S&P SmallCap 600 futures contract, trading in S&P SmallCap 600 futures also shall terminate for that two-minute period, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence, that limit shall apply until a corresponding limit for the E-mini S&P SmallCap 600 futures contract ceases to apply, pursuant to Rule 36802.1. If a two-minute trading halt follows for the E-mini S&P SmallCap 600 futures contract, trading in S&P SmallCap 600 futures also shall terminate for that two-minute period, after which time the market shall reopen. The 30% Price Limit shall apply to such reopening and shall represent the Total Daily Price Limit.

Trading Halts³³: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the S&P SmallCap 600 Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in

³² Revised December 2007.

³³ Revised December 2007; January 2008.

the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the S&P SmallCap 600 Index futures contract shall continue and the next applicable Price Limit shall apply.

Opening Time³⁴: The opening time of trading on GLOBEX will be the same as the opening time of GLOBEX trading of S&P 500 contracts. In particular, the opening time of GLOBEX trading will be delayed until 6:00 p.m. if GLOBEX trading of S&P 500 contracts is delayed until 6:00 p.m.

During Electronic Trading Hours (ETH), there shall be no trading of S&P SmallCap 600 futures at a price more than the 5.0% Price Limit above or below the Reference RTH Price. If the market is limit bid or limit offered fifteen (15) minutes prior to the opening of the RTH, and remains limit bid or limit offered five (5) minutes prior to the opening of the RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH). During the trading halt, the Exchange shall provide an indicative opening price for the re-opening of trading on GLOBEX, if applicable, pursuant to Rule 573. [~~during a period commencing two minutes prior to the opening of RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH).~~] Once RTH commences, the next applicable trading limit shall be in effect.

Chapter 356
S&P 500/ CITIGROUP Value Index Futures

35602. FUTURES CALL

[35602.A. – 35602.H remains unchanged.]

35602.I. Price Limits, Trading Halts, and/or Trading Hours

Daily price limits and trading halts of the S&P 500/CITIGROUP Value Index futures contract shall be coordinated with trading halts of the underlying stocks listed for trading in the securities markets.

For the purpose of this rule, the primary futures contract shall be defined as the futures contract trading in the lead month configuration in the pit and Exchange staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, there will be an implied previous business day's settlement price, created by the Exchange for the sole purpose of establishing price limits. The implied settlement price will be created by extrapolating the annualized percentage carry between the two contract months immediately prior to the newly listed contract.

Price Limits: There shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Settlement Price of the preceding RTH session calculated as provided below.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the current primary futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.⁴¹

Trading Halts: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the S&P 500/CITIGROUP Value Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the S&P

⁴¹ Revised December 2007; January 2008.

500/CITIGROUP Value Index futures contract shall continue and the next applicable Price Limit shall apply.

Opening Time⁴²: The opening time of trading on GLOBEX will be the same as the opening time of GLOBEX trading of S&P 500 contracts. In particular, the opening time of GLOBEX trading will be delayed until 6:00 p.m. if GLOBEX trading of S&P 500 contracts is delayed until 6:00 p.m.

During Electronic Trading Hours (ETH), there shall be no trading of S&P 500/CITIGROUP Value Index futures at a price more than the 5.0% Price Limit above or below the Reference RTH Price. If the market is limit bid or limit offered fifteen (15) minutes prior to the opening of the RTH, and remains limit bid or limit offered five (5) minutes prior to the opening of the RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH). During the trading halt, the Exchange shall provide an indicative opening price for the re-opening of trading on GLOBEX, if applicable, pursuant to Rule 573. Once RTH commences, the next applicable trading limit shall be in effect.

[Remainder of Chapter 356 remains unchanged.]

⁴² Revised December 2007.

Chapter 357: NASDAQ 100 Index Futures

35702. FUTURES CALL

[35702.A. – 35702.H remains unchanged.]

35702.I. Price Limits, Trading Halts, and/or Trading Hours⁴³

Daily price limits and trading halts of the NASDAQ 100 Stock Price Index futures contract shall be coordinated with trading halts of the underlying stocks listed for trading in the securities markets.

For the purpose of this rule, the primary futures contract shall be defined as the futures contract trading in the lead month configuration in the pit and Exchange staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, there will be an implied previous business day's settlement price, created by the Exchange for the sole purpose of establishing price limits. The implied settlement price will be created by extrapolating the annualized percentage carry between the two contract months immediately prior to the newly listed contract.

Price Limits: There shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Settlement Price of the preceding RTH session calculated as provided below.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the current primary futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence, that limit shall apply until a corresponding limit for the E-mini Nasdaq 100 futures contract ceases to apply, pursuant to Rule 35802.I. If a two-minute trading halt follows for the E-mini Nasdaq 100 futures contract, trading in Nasdaq 100 futures also shall terminate for that two-minute period, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence, that limit shall apply until a corresponding limit for the E-mini Nasdaq 100 futures contract ceases to apply, pursuant to Rule 35802.I. If a two-minute trading halt follows for the E-mini Nasdaq 100 futures contract, trading in Nasdaq 100 futures also shall terminate for that two-minute period, after which time the market shall reopen. The 30% Price Limit shall apply to such reopening and shall represent the Total Daily Price Limit.

Trading Halts: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the Nasdaq 100 Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended

⁴³ Adopted January 1988; effective March 28, 1988; Revised March 1988; October 1988; June 1990; December 1990; December 1992; June 1993; October 1994; July 1996; February 1997; October 1997; February 1998; April 1998; January 1999; November 2000; May 2001, December 2007, January 2008.

after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the Nasdaq 100 Index futures contract shall continue and the next applicable Price Limit shall apply.

Opening Time⁴⁴: If either a trading halt was in effect or the primary futures contract was locked at a limit at the close of trading, then the opening time of trading on GLOBEX shall be delayed until 6:00 p.m.

During Electronic Trading Hours (ETH), there shall be no trading of Nasdaq 100 futures at a price more than the 5.0% Price Limit above or below the Reference RTH Price. If the market is limit bid or limit offered fifteen (15) minutes prior to the opening of the RTH, and remains limit bid or limit offered five (5) minutes prior to the opening of the RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH). During the trading halt, the Exchange shall provide an indicative opening price for the re-opening of trading on GLOBEX, if applicable, pursuant to Rule 573. Once RTH commences, the next applicable trading limit shall be in effect.

[Remainder of Chapter 357 remains unchanged.]

Chapter 358: E-mini Standard and Poor's 500 Stock Price Index Futures

35802. FUTURES CALL

[35802.A. – 35802.H remains unchanged.]

35802.I. Price Limits, Trading Halts, and/or Trading Hours⁴⁵

Daily price limits and trading halts of the E-mini S&P 500 Stock Price Index futures contract shall be coordinated with trading halts of the underlying stocks listed for trading in the securities markets.

For the purpose of this rule, the primary E-mini futures contract shall be defined as the nearest E-mini S&P 500 futures contract. The Equity Price Limit Committee shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, the implied settlement price will be the most recent daily settlement of the S&P 500 futures contract whose expiration date matches that of the newly listed contract.

Price Limits: For purpose of rules determining price limits and trading halts, RTH and ETH refer to, respectively, the Regular Trading Hours and the Electronic Trading Hours of the Standard and Poor's 500 Stock Price Index Futures.

At the open of RTH, there shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Reference RTH Price.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the S&P 500 futures contract whose expiration date matches that of the current primary E-mini futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price limit shall apply to such reopening.

Trading Halts: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the E-mini S&P 500 Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in

⁴⁵ Adopted January 1988; effective March 28, 1988; Revised March 1988; October 1988; June 1990; December 1990; December 1992; June 1993; October 1994; July 1996; February 1997; October 1997; February 1998; April 1998; January 1999; November 2000; May 2001, December 2007, January 2008.

the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the E-mini S&P 500 Index futures contract shall continue and the next applicable Price Limit shall apply.

Opening Time⁴⁶: If either a trading halt was in effect or the primary futures contract was locked at a limit at the close of trading, then the opening time of trading on GLOBEX shall be delayed until 6:00 p.m.

During Electronic Trading Hours (ETH), there shall be no trading of E-mini S&P 500 futures at a price more than the 5.0% Price Limit above or below the Reference RTH Price. If the market is limit bid or limit offered fifteen (15) minutes prior to the opening of the RTH, and remains limit bid or limit offered five (5) minutes prior to the opening of the RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH). During the trading halt, the Exchange shall provide an indicative opening price for the re-opening of trading on GLOBEX, if applicable, pursuant to Rule 573. Once RTH commences, the next applicable trading limit shall be in effect.

⁵³ Revised January 2008.

⁵⁴ Revised December 2007.

Chapter 365
S&P 500/ Technology SPCTR™ Futures

36502. FUTURES CALL

[36502.A. – 36502.H remains unchanged.]

36502.I. Price Limits, Trading Halts and/or Trading Hours

Daily price limits and trading halts of the S&P 500 Technology SPCTR futures contract shall be coordinated with trading halts of the underlying securities listed for trading in the securities markets.

For the purpose of this rule, the primary futures contract shall be defined as the nearest S&P 500 Technology SPCTR futures contract month. Exchange staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, there will be an implied previous business day's settlement price, created by the Exchange for the sole purpose of establishing price limits. The implied settlement price will be created by extrapolating the annualized percentage carry between the two contract months immediately prior to the newly listed contract.

Price Limits: There shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Settlement Price of the preceding RTH session calculated as provided below.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the current primary futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

Trading Halts⁵⁵: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the S&P 500 Technology SPCTR Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the S&P 500 Technology SPCTR Index futures contract shall continue and the next applicable Price Limit shall apply.

⁵⁵ Revised December 2007; January 2008.

Mr. David Stawick

December 29, 2008

⁵⁶ Revised December 2007.

Chapter 366
S&P 500/ Financial SPCTR™ Futures

36602. FUTURES CALL

[36602.A. – 36602.H remains unchanged.]

36602.I. Price Limits, Trading Halts and/or Trading Hours

Daily price limits and trading halts of the S&P 500 Financial SPCTR futures contract shall be coordinated with trading halts of the underlying securities listed for trading in the securities markets.

For the purpose of this rule, the primary futures contract shall be defined as the nearest S&P 500 Financial SPCTR futures contract month. Exchange staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, there will be an implied previous business day's settlement price, created by the Exchange for the sole purpose of establishing price limits. The implied settlement price will be created by extrapolating the annualized percentage carry between the two contract months immediately prior to the newly listed contract.

Price Limits⁵⁷: There shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Settlement Price of the preceding RTH session calculated as provided below.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the current primary futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

Trading Halts⁵⁸: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the E-Mini S&P 500 Financial SPCTR Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the E-

Page 52 of 58

Mini S&P 500 Financial SPCTR Index futures contract shall continue and the next applicable Price Limit shall apply.

36602.J. GLOBEX Opening Time and Price Limit

Opening Time: The opening time of trading on GLOBEX will be the same as the opening time of GLOBEX trading of S&P 500 contracts. In particular, the opening time of GLOBEX trading will be delayed until 6:00 p.m. if GLOBEX trading of S&P 500 contracts is delayed until 6:00 p.m.

During Electronic Trading Hours (ETH), there shall be no trading of S&P 500 Financial SPCTR futures at a price more than the 5.0% Price Limit above or below the Reference RTH Price. If the market is limit bid or limit offered fifteen (15) minutes prior to the opening of the RTH, and remains limit bid or limit offered five (5) minutes prior to the opening of the RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH). During the trading halt, the Exchange shall provide an indicative opening price for the re-opening of trading on GLOBEX, if applicable, pursuant to Rule 573. Once RTH commences, the next applicable trading limit shall be in effect.⁵⁹

Chapter 377
E-mini NASDAQ Composite Index Futures

37702. FUTURES CALL

[37702.A. – 37702.H remains unchanged.]

37702.I. Price Limits, Trading Halts, and/or Trading Hours

Daily price limits and trading halts of the E-Mini NASDAQ Composite Index futures contract shall be coordinated with trading halts of the underlying stocks listed for trading in the securities markets.

For the purpose of this rule, the primary futures contract shall be defined as the futures contract trading in the lead month configuration in the pit and Exchange staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, there will be an implied previous business day's settlement price, created by the Exchange for the sole purpose of establishing price limits. The implied settlement price will be created by extrapolating the annualized percentage carry between the two contract months immediately prior to the newly listed contract.

Price Limits⁶³: There shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Settlement Price of the preceding RTH session calculated as provided below.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the current primary futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence. If the primary futures contract is limit offered at the end of the 10-minute period, trading shall terminate for a period of two minutes, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

Trading Halts⁶⁴: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the E-Mini NASDAQ Composite Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the E-

Chapter 380
S&P SmallCap 600 Index™ Futures

38002. FUTURES CALL

[38002.A. – 38002.H remains unchanged.]

38002.I. Price Limits, Trading Halts and/or Trading Hours

Daily price limits and trading halts of the S&P SmallCap 600 Index futures contract shall be coordinated with trading halts of the underlying securities listed for trading in the securities markets.

For the purpose of this rule, the primary futures contract shall be defined as the nearest S&P SmallCap 600 Index futures contract month. Exchange staff shall have the responsibility of determining whether the primary futures contract is limit offered.

For the first day of trading in a newly listed contract, there will be an implied previous business day's settlement price, created by the Exchange for the sole purpose of establishing price limits. The implied settlement price will be created by extrapolating the annualized percentage carry between the two contract months immediately prior to the newly listed contract.

Price Limits⁶⁶: There shall be Price Limits corresponding to a 10.0%, 20.0% and 30.0% decline below the Settlement Price of the preceding RTH session calculated as provided below.

The Price Limits shall be calculated at the beginning of each calendar quarter, based upon the average closing price of the current primary futures contract, during the month prior to the beginning of the quarter (P) and rounded, as follows.

5.0% Price Limit	equals	One half of the 10% Price Limit rounded down to nearest integral multiple of 1 index point
10.0% Price Limit	equals	10% of P rounded down to nearest integral multiple of 10 index points
20.0% Price Limit	equals	2 times the 10.0% Price Limit
30.0% Price Limit	equals	3 times the 10.0% Price Limit

When the primary futures contract is limit offered at the 10.0% Price Limit, a 10-minute period shall commence, that limit shall apply until a corresponding limit for the E-mini S&P SmallCap 600 futures contract ceases to apply, pursuant to Rule 36802.I. If a two-minute trading halt follows for the E-mini S&P SmallCap 600 futures contract, trading in S&P SmallCap 600 futures also shall terminate for that two-minute period, after which time the market shall reopen. The next applicable price Limit shall apply to such reopening.

When the primary futures contract is limit offered at the 20.0% Price Limit, a 10-minute period shall commence, that limit shall apply until a corresponding limit for the E-mini S&P SmallCap 600 futures contract ceases to apply, pursuant to Rule 36802.I. If a two-minute trading halt follows for the E-mini S&P SmallCap 600 futures contract, trading in S&P SmallCap 600 futures also shall terminate for that two-minute period, after which time the market shall reopen. The 30% Price Limit shall apply to such reopening and shall represent the Total Daily Price Limit.

Trading Halts⁶⁷: If there is an NYSE Rule 80B trading halt declared in the primary securities market, trading shall be halted. Once trading in the primary securities market resumes after an NYSE Rule 80B trading halt, trading on the S&P SmallCap 600 Index futures contract shall resume.

If an NYSE Rule 80B trading halt becomes inapplicable, the corresponding Price Limit shall likewise become inapplicable. E.g., if an NYSE Rule 80B trading halt, triggered by a 10% or a 20% decline in

⁶⁶ Revised December 2007.

⁶⁷ Revised December 2007; January 2008.

the Dow Jones Industrial Average, has been declared in the primary securities market, and trading in the primary securities market has recommenced, then the 10.0% or 20.0% Price Limits shall become inapplicable, respectively. E.g., when the NYSE Rule 80B 10.0% price limit provisions are suspended after 2:30 p.m. Eastern time, then the 10.0% Price Limit shall become inapplicable. Trading on the S&P SmallCap 600 Index futures contract shall continue and the next applicable Price Limit shall apply.

Opening Time⁶⁸: The opening time of trading on GLOBEX will be the same as the opening time of GLOBEX trading of S&P 500 contracts. In particular, the opening time of GLOBEX trading will be delayed until 6:00 p.m. if GLOBEX trading of S&P 500 contracts is delayed until 6:00 p.m.

During Electronic Trading Hours (ETH), there shall be no trading of S&P SmallCap 600 futures at a price more than the 5.0% Price Limit above or below the Reference RTH Price. If the market is limit bid or limit offered fifteen (15) minutes prior to the opening of the RTH, and remains limit bid or limit offered five (5) minutes prior to the opening of the RTH, there shall be a trading halt in effect until the commencement of Regular Trading Hours (RTH). During the trading halt, the Exchange shall provide an indicative opening price for the re-opening of trading on GLOBEX, if applicable, pursuant to Rule 573. Once RTH commences, the next applicable trading limit shall be in effect.
